Dear Comments Clerk Texas Railroad Commission,

As a mother and a grandmother, I am very concerned for the health and viability of the planet our children and future generations will inherit. We have a duty to our communities, families and most importantly, children to ensure their safety and well being through environmentally sound and sustainable policies, as well as, clean air and water. That duty will always be more important than cooperate profit.

And in the wake of the collapse of oil prices, I support prioritizing production cuts for oil companies with the worst records of excessive flaring at drilling sites. This is a waste of resources and harmful to our climate.

I want to see a plan to downsize the production of oil and gas throughout the next decade and manage the just transition to a cleaner economy for Texas.

Regards,
Juli Kring
