Dear Comments Clerk Texas Railroad Commission,

We've gotten a leg up on pollution from vehicle emissions during the coronavirus crisis. Let's build on it by reducing unnecessary industrial emissions! Your grandchildren will thank you, and their lungs won't be compromised when the next virus comes around.

In the wake of the collapse of oil prices, I support prioritizing production cuts for oil companies with the worst records of excessive flaring at drilling sites. This is a waste of resources and harmful to our climate.

I want to see a plan to downsize the production of oil and gas throughout the next decade and manage the just transition to a cleaner economy for Texas.

Regards,
Ann Montgomery
