Dear Comments Clerk Texas Railroad Commission,

In the wake of the collapse of oil prices, I support prioritizing production cuts for oil companies with the worst records of excessive flaring at drilling sites. This is a waste of resources and harmful to our climate.

I want to see a plan to downsize the production of oil and gas throughout the next decade and manage the just transition to a cleaner economy for Texas.

We are beginning to organize for nationalize wind down of oil. That is the most effective way to stop flaring.

Regards,
Ben Wunn
