Dear Comments Clerk Texas Railroad Commission,

In the wake of the collapse of oil prices, I support prioritizing production cuts for oil companies with the worst records of excessive flaring at drilling sites. This is a waste of resources and harmful to our climate.

I want to see a plan to downsize the production of oil and gas throughout the next decade and manage the just transition to a cleaner economy for Texas.

Texas can still be known for energy and innovation. I live in Houston, and I am tired of breathing in chemcicals from 25 miles of petrochemical plants on my doorstep. IT IS NOT NECESSARY.

Regards,
Kelly Pruitt
