RAILROAD COMMISSION OF TEXAS
HEARINGS DIVISION

OIL AND GAS DOCKET IN THE FROST (SMACKOVER)
NO. 06-0281696 FIELD, CASS COUNTY, TEXAS

FINAL ORDER
APPROVING THE APPLICATION OF SULPHUR RIVER EXPLORATION, INC. FOR
UNITIZATION AND SECONDARY RECOVERY AUTHORITY FOR THE
FROST WATERFLOOD UNIT
FROST (SMACKOVER) FIELD
CASS COUNTY, TEXAS

The Commission finds that after statutory notice in the above-numbered docket, on
the application of Sulphur River Exploration, Inc. heard on May 24 & July 10, 2013, the
presiding examiners have made and filed a report and proposal for decision containing
findings of fact and conclusions of law, which was served on all parties of record; that the
proposed application is in compliance with all statutory requirements; and that this
proceeding was duly submitted to the Railroad Commission of Texas at conference held
in its offices in Austin, Texas.

The Commission, after review and due consideration of the examiners' report and
proposal for decision, the findings of fact and conclusions of law contained therein, and any
exceptions and replies thereto, hereby adopts as its own the findings of fact and
conclusions of law contained therein, and incorporates said findings of fact and
conclusions of law as if fully set out and separately stated herein.

Therefore, it is ORDERED by the Railroad Commission of Texas that the Frost
Waterflood Unit in the Frost (Smackover) Field, Cass County, Texas, as shown by plat
submitted, be and is hereby approved as a Unit for secondary recovery purposes, subject
to the following terms and conditions:

1. The Railroad Commission of Texas retains all powers and duties with regard
to conservation of oil and gas in this field, and no proration order of the
Commission will be promulgated pursuant to the terms of the unit agreement;
and the allocation formula for the wells included in the agreement shall
remain and continue in full force and effect as if the agreement had not been
approved.

2. The proration units as established for the individual wells within the unitized
area prior to the approval of the unitization agreement are hereby adopted,
approved, and continued in effect for allowable allocation purposes for such
wells unless the unit operator elects to revise the proration units.

3. For proration purposes, the unitized area will be considered a single tract.
4. The unit operator shall file with the Railroad Commission, in addition to the production report for the unit, a supplemental production report for each individual tract that is committed to the unit where any non-unitized interest exists, showing all things pertinent so that the owner of such non-unitized interest may have access to public records showing the status of his interest. The Supplemental Production Reports will document oil and gas production volumes determined by the method set out in the adopted findings of fact. Any deviation from this method must be submitted to the Director of the Oil and Gas Division or his delegate for approval, with notice to the non-unitized interest owner.

5. In order to protect unsigned ownership, when 100% of the royalty and working interest owners in a tract have not joined the unit, the operator is not authorized to convert the last producing well on that tract to an injector unless an exception is granted after notice and hearing.

6. All injection authority and each injection well within the unitized area is hereby made subject to the terms and conditions of the Texas Water Code, §27.0511 if fresh water is used.

Further, it is ORDERED by the Railroad Commission of Texas that Sulphur River Exploration, Inc. is hereby authorized to conduct secondary recovery operations on its Frost Waterflood Unit, Frost (Smackover) Field, Cass County, Texas, subject to the following terms and conditions:

1. All injection authority within the unitized area previously granted by the Commission is hereby made subject to the terms and conditions of this order and the Technical Permitting Section is hereby authorized to issue amended injection permits in accordance with normal procedure as necessary to reflect the terms and conditions contained in this order or as later directed by the Commission.

2. The operator may expand or modify the proposed injection facilities without additional hearing for Commission approval of such expansion or modification, with respect to secondary recovery authorization, but each injection well remains subject to the filing requirements of Statewide Rule 46 including Commission Form H-1, "Application to Inject Fluid Into a Reservoir Productive of Oil or Gas" for injection wells not previously permitted as such.

3. The unit operator must submit application for injection well permits to the Technical Permitting Section and receive such permits prior to commencing injection pursuant to this order.
Each exception to the examiners' proposal for decision not expressly granted herein is overruled. All requested findings of fact and conclusions of law which are not expressly adopted herein are denied. All pending motions and requests for relief not previously granted or granted herein are denied.

This order will not be final and effective until 20 days after a party is notified of the Commission's order. A party is presumed to have been notified of the Commission's order three days after the date on which the notice is actually mailed. If a timely motion for rehearing is filed by any party at interest, this order shall not become final and effective until such motion is overruled, or if such motion is granted, this order shall be subject to further action by the Commission. Pursuant to TEX. GOV'T CODE §2001.146(e), the time allotted for Commission action on a motion for rehearing in this case prior to its being overruled by operation of law, is hereby extended until 90 days from the date the order is served on the parties.

Done this 4th day of February, 2014.

RAILROAD COMMISSION OF TEXAS

Chairman Barry T. Smitherman

Commissioner David Porter

Commissioner Christi Craddick
