

RAILROAD COMMISSION OF TEXAS
OFFICE OF GENERAL COUNSEL

OIL AND GAS DOCKET
NOS. 7B-0246062 & 7B-0246270

IN THE MEAD (STRAWN) FIELD, JONES
COUNTY, TEXAS

NUNC PRO TUNC ORDER
APPROVING THE APPLICATION OF L.C.S. PRODUCTION COMPANY
TO INJECT FLUID INTO A RESERVOIR
PRODUCTIVE OF OIL OR GAS IN THE MEAD STRAWN UNIT
WELL NOS. 1WI, 11WI, 12WI AND 13WI
IN THE MEAD (STRAWN) FIELD
JONES COUNTY, TEXAS

In conference at its office in Austin, Texas the Railroad Commission of Texas took up for consideration the matter of correcting its Final Order entered on August 22, 2006 approving the application of L.C.S. Production Company to inject fluid in the Mead Strawn Unit, Well Nos. 1WI, 11WI, 12WI and 13WI, Mead (Strawn) Field, Jones County, Texas. The Commission finds that, due to clerical error, the Final Order entered August 22, 2006 incorrectly designated a well to be re-entered as the T.D. Compton Lease Well No. 1 rather than the T.D. Compton Lease Well No. 3.

Accordingly, it is **ORDERED** that the Final Order in Docket Nos. 7B-0246062 & 7B-0246270 be, and the same is hereby, corrected and amended *nunc pro tunc* so that Amended Finding of Fact No. 8 and Special Condition No. 2 read as follows:

Amended Finding of Fact

8. L.C.S. will re-enter the Roark, Hooker, Jones & Stasney-Chancey et al Lease Well No. 1 and Geochemical Surveys - T.D. Compton Lease Well No. 3 and use these wells as either producing or injection wells, or plug them.

SPECIAL CONDITION:

2. Prior to beginning injection, L.C.S. Production Company must re-enter the Roark, Hooker, Jones & Stasney-Chancey et al Lease Well No. 1 and the Geochemical Surveys-T.D. Compton Lease Well No. 3. Each of these wells must be used as a producing well or injection well, or be plugged and abandoned in accordance with current Commission rules.

Done this 11th day of March, 2009.

RAILROAD COMMISSION OF TEXAS

Chairman Victor G. Carrillo

Commissioner Elizabeth A. Jones

Commissioner Michael L. Williams
