

**RAILROAD COMMISSION OF TEXAS  
OFFICE OF GENERAL COUNSEL**

**OIL AND GAS DOCKET  
NO. 08-0249208**

**IN THE ABROJO (MULTIPAY) FIELD,  
PECOS COUNTY, TEXAS**

**FINAL ORDER  
APPROVING THE APPLICATION OF  
SANDRIDGE ENERGY, INC. FOR NEW FIELD DESIGNATION  
ABROJO (MULTIPAY) FIELD  
PECOS COUNTY, TEXAS**

The Commission finds that after statutory notice in the above-numbered docket heard on November 7, 2006, the presiding examiner has made and filed a report and recommendation containing findings of fact and conclusions of law, for which service was not required; that the proposed application is in compliance with all statutory requirements; and that this proceeding was duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas.

The Commission, after review and due consideration of the examiner's report and recommendation, the findings of fact and conclusions of law contained therein, hereby adopts as its own the findings of fact and conclusions of law contained therein, and incorporates said findings of fact and conclusions of law as if fully set out and separately stated herein.

Therefore, it is ordered by the Railroad Commission of Texas that the application of Sandridge Energy, Inc. for new field designation for its Longfellow 138 Well No. 2201 is hereby approved. The new field shall be known as the Abrojo (Multipay) Field, ID No. 00398 500, Pecos County, Texas.

It is further ordered that the following field rules are hereby adopted for the Abrojo (Multipay) Field, Pecos County, Texas:

**RULE 1:** The entire correlative interval between 5,840 feet and 8,250 feet, as shown on the log of the Longfellow 138 No. 2201 (API No. 371 37531), Section 22, Block 138, T & STL RR Co./G. W. Brown Survey, A-5209, Pecos County, shall be designated as a single reservoir for proration purposes and be designated as the Abrojo (Multipay) Field.

**RULE 2:** The daily allowable production of gas from individual wells completed in the subject field shall be determined by allocating the allowable production, after deductions have been made for wells which are incapable of producing their gas allowables, among the individual wells in the following manner:

FIVE percent (5%) of the field's total allowable shall be allocated equally among all the individual proratable wells producing from the field.

NINETY-FIVE percent (95%) of the field's total allowable shall be allocated among the individual wells in the proportion that the deliverability of such well, as evidenced by the most recent G-10 test filed with the Railroad Commission bears to the summation of the deliverability of all proratable wells producing from the field.

Done this 5<sup>th</sup> day of December, 2006.
