---

**FINAL ORDER**

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on March 22, 2004, and that the respondent, Advantage Oil & Gas, Inc. (008511), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

**FINDINGS OF FACT**

1. Advantage Oil & Gas, Inc. (008511), ("respondent") was given Notice of Opportunity for Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report, which was signed and returned to the Commission.
2. The returned certified receipt (green card) attached to the Original Complaint and the Notice of Opportunity for Hearing was signed and returned to the Commission March 1, 2004. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On April 28, 2003, Respondent, a Corporation, filed an Organization Report (Form P-5) with the Commission reporting that its officers consisted of the following individual(s): Tom G. White; President, and Diane M. White; Vice-President.
4. Tom G. White, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resource Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
5. Diane M. White, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resource Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
6. The violations of Commission rules committed by respondent are related to safety and the prevention or control of pollution.

7. Respondent designated itself to the Commission as the operator of Well No. 1 (485851) on the Mayfield Brothers Lease and Well No. 2 (504633) on the Mayfield, P.O. Lease ("subject wells"/"subject leases") by filing Form W-1's (Application to Drill, Plug Back or Re-enter) with the Commission on September 9, 1999 for the Mayfield Brothers Lease, Well No. 1 (485851) and February 5, 2001 for the Mayfield, P.O. Lease, Well No. 2 (504633).
8. According to Commission records the Respondent's Form P-5 (Organization Report) became delinquent on April 1, 2004. Respondent had a \$25,000 Letter of Credit as its Financial Assurance at the time of its last Form P-5 renewal.
9. The subject wells have never produced and have been inactive for a period greater than one year.
10. The subject wells have not been properly plugged in accordance with, and are not otherwise in compliance with, Statewide Rule 14.
11. Usable quality groundwater in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject wells. Unplugged wellbores constitute a cognizable threat to the public health and safety because of the probability of pollution.
12. The estimated cost to the State of plugging the subject wells is \$39,700.00 for Well No. 1 (485851) on the Mayfield Brothers Lease and \$10,800.00 for Well No. 2 (504633) on the Mayfield, P.O. Lease.
13. The Respondent has not demonstrated good faith since it failed to plug or otherwise place the subject leases and subject wells in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
