**ENFORCEMENT ACTION FOR ALLEGED VIOLATIONS COMMITTED BY GEONATURAL RESOURCES, INC. (300805), AS TO THE GEO-GOLIAD LEASE, WELL NO. 1 (196822), MARSHALL, EAST (YEGUA 5300) FIELD, GOLIAD COUNTY, TEXAS**

---

**FINAL ORDER**

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on March 1, 2007, and that the respondent, Geonatural Resources, Inc. (300805), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

**FINDINGS OF FACT**

1. Geonatural Resources, Inc. (300805), ("Respondent") was given Notice of Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report, which was signed and returned to the Commission.
2. The returned certified receipt (green card) that was attached to the Original Complaint and the Notice of Hearing mailed to Respondent's most recent P-5 address was signed and returned to the Commission on February 12, 2007. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On November 9, 2005, Respondent, a Corporation, filed an Organization Report (Form P-5), with the Commission reporting that its officers consisted of the following individual(s): Hartmut Th. Rose; President and Patrick James Reed; Vice-President.
4. Hartmut Th. Rose, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
5. Patrick James Reed, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.

6. The violations of Commission rules committed by respondent are related to safety and the control of pollution.
7. Respondent designated itself to the Commission as the operator of Well No. 1 (196822) on the Geo-Goliad Lease ("subject well"/"subject lease") by filing a Form P-4 (Producers Transportation Authority and Certificate of Compliance) with the Commission effective on December 11, 2002.
8. According to Commission records the Respondent's Form P-5 (Organization Report) is active. Respondent has \$50,000.00 cash as its financial assurance.
9. The subject well ceased production on or before June 2003.
10. The subject well has not been properly plugged in accordance with, and is not otherwise in compliance with, Statewide Rule 14.
11. Usable quality groundwater in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject well. Unplugged wellbores constitute a cognizable threat to the public health and safety because of the probability of pollution.
12. The estimated cost to the State of plugging the subject well is \$11,000.00.
13. Commission district office inspections were conducted on April 20, 2005, June 29, 2005, July 27, 2005, August 22, 2005, September 29, 2005, November 29, 2005 and December 15, 2005 for the Geo-Goliad Lease. The signs or identification required to be posted at the well site and tank battery were missing.
14. Failure to properly identify a lease and wells by the posting of the sign required by Statewide Rule 3 has the potential for causing confusion and delay in remedying a violation or emergency and poses a threat to the public health and safety.
15. Pursuant to Commission records, drilling operations on Well No. 1 (196822) of the Geo-Goliad Lease were completed on December 12, 2002. Commission district inspection reports made on April 20, 2005, June 29, 2005, July 27, 2005, August 22, 2005, September 29, 2005, November 29, 2005 and December 15, 2005 for the Geo-Goliad Lease, Well No. 1 (196822), indicate the presence of three open drilling pits measuring approximately 80' x 80', 60' x 20' and 60' x 15'.
16. According to Commission records, Well No. 1 (196822) of the Geo-Goliad Lease was completed on December 11, 2002. Commission district office inspections conducted on April 20, 2005, June 29, 2005, July 27, 2005, August 22, 2005, September 29, 2005, November 29, 2005 and December 15, 2005 for the Geo-Goliad Lease, Well No. 1 (196822) indicate the presence of an open workover pit measuring approximately 10' x 10'.

17. Unfilled pits constitute a hazard to public health and safety because of the potential for illegal dumping in the pits and the potential for surface run-off to collect in the pit and seep into subsurface waters.
18. The Respondent has not demonstrated good faith since it failed to plug or otherwise place the subject lease and subject well in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
19. The plugging extension for Well No. 1 (196822) on the Geo-Goliad Lease was cancelled on May 8, 2006 due to a Field Operations hold regarding Statewide Rules 3, 8 and 14.
20. On February 28, 2007, a letter was received from Geonatural Resources, Inc. (300805) signed by the President; Hartmut Th. Rose, stating that Geonatural Resources, Inc. is unable to bring the well into compliance.
