FINAL ORDER

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on September 28, 2006, and that the respondent, Geonatural Resources, Inc. (300805), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Geonatural Resources, Inc. (300805), ("Respondent") was given a Notice of Opportunity for Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report, was signed and returned to the Commission.
2. The returned certified receipt (green card) that was attached to the Original Complaint and the Notice of Opportunity for Hearing mailed to Respondent's most recent P-5 address was signed and returned to the Commission on August 23, 2006. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On June 20, 2006, Respondent, a Corporation, filed an Organization Report (Form P-5) with the Commission reporting that its officers consisted of the following individual(s): Hartmut Rose; President, and Patrick James Reedy; Vice-President.

6. The violations of Commission rules committed by respondent are related to safety and the control of pollution.
7. Respondent designated itself to the Commission as the operator of Well No. 2 (207267) on the Geo-Goldenrod Lease ("subject well"/"subject lease"), by filing a Form P-4 (Producer's Transportation Authority and Certificate of Compliance) with the Commission, effective on October 23, 2003.
8. According to Commission records the Respondent's Form P-5 (Organization Report) is active. Respondent paid \$50,000 in cash as its financial assurance.
9. The subject well has never produced.
10. The subject well has not been properly plugged in accordance with, and is not otherwise in compliance with, Statewide Rule 14.
11. Usable quality groundwater in the area is likely to be contaminated by migrations of discharges of saltwater and other oil and gas wastes from the subject well. Unplugged wellbores constitute a cognizable threat to the public health and safety because of the probability of pollution.
12. The estimated cost to the State of plugging the subject well is \$11,600.00.
13. The Respondent has not demonstrated good faith since it failed to place the subject lease and subject well in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
