OIL AND GAS DOCKET NO. 03-0245044

ENFORCEMENT ACTION FOR ALLEGED VIOLATIONS COMMITTED BY ANDERSON PETRO-EQUIPMENT, INC. (022548), AS TO THE HANKAMER SEC. 31 (18075) LEASE, WELL NO. 1, DEVILS POCKET, WEST FIELD, NEWTON COUNTY, TEXAS

FINAL ORDER

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on January 26, 2006, and that the respondent, Anderson Petro-Equipment, Inc. (022548), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Anderson Petro-Equipment, Inc. (022548), ("Respondent") was given Notice of Opportunity for Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report, which was returned to the Commission marked "not deliverable as addressed, unable to forward."
2. The returned certified receipt containing the Original Complaint and the Notice of Opportunity for Hearing mailed to Respondent's most recent P-5 address was returned to the Commission marked "not deliverable as addressed, unable to forward" on December 22, 2005. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On May 28, 2003, Respondent, a Corporation, filed an Organization Report (Form P-5) with the Commission reporting that its officers consisted of the following individual(s): Curtis R. Anderson; President.
4. Curtis R. Anderson, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
5. The violations of Commission rules committed by respondent are related to safety and the control of pollution.

6. Respondent designated itself to the Commission as the operator of Well No. 1 on the Hankamer Sec. 31 (18075) Lease ("subject well"/"subject lease") by filing a Form P-4 (Producers Transportation of Authority and Certificate of Compliance) with the Commission effective on May 13, 1989.
7. According to Commission records the Respondent's Form P-5 (Organization Report) became delinquent on February 1, 2004. Respondent paid a fee of \$3,325.00 as its financial assurance at the time of its last P-5 renewal.
8. The subject well ceased production on or before January 2002.
9. The subject well was not properly plugged in accordance with, and was not otherwise in compliance with, Statewide Rule 14.
10. The total estimated cost to the State of plugging the subject well is \$47,000.00.
11. Usable quality groundwater in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject well. Unplugged wellbores constitute a cognizable threat to the public health and safety because of the probability of pollution.
12. A Commission district office inspection was conducted on July 7, 2005 for the Hankamer Sec. 31 (18075) Lease. Two tanks were running over and discharging oil and saltwater into the firewall.
13. No permit has been issued to the Respondent for the discharge of oil and gas wastes on or from the subject lease.
14. The unpermitted discharges of oil and gas wastes or other substances or materials on the subject lease constitute a hazard to public health and safety because leaks and spills of oil and produced waters onto soils can migrate into surface water bodies causing contamination or can leach into the ground and percolate through soils into groundwater supplies.
15. The Respondent has not demonstrated good faith since it failed to plug or otherwise place the subject lease and subject well in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
16. The Respondent has a prior history of Commission rule violations including the following docket(s):

Docket No. 03-0234953; Rule 14; Final Order Served: May 11, 2004.
17. The Railroad Commission has spent \$2,936.25 in State Funds cleaning up the Hankamer Sec. 31 (18075) Lease.

18. Respondent is the person responsible for cleaning up the discharges on this subject lease under TEX. NAT. RES. CODE ANN. §91.113(b), and the Commission may recover from Respondent all costs incurred in cleaning up the subject lease pursuant to TEX. NAT. RES. CODE ANN. §91.113(f).

5. Respondent is responsible for maintaining the subject lease and well in compliance with all applicable Commission rules according to Statewide Rules 14, 58, and 79 and Chapters 89 and 91 of the Texas Natural Resources Code.
6. The documented violations committed by the respondent constitute acts deemed serious, a hazard to the public health, and demonstrate a lack of good faith pursuant to TEX. NAT. RES. CODE ANN. §81.0531(c).
7. As a person in a position of ownership or control of respondent at the time respondent violated Commission rules related to safety and the control of pollution, Curtis R. Anderson, and any other organization in which he may hold a position of ownership or control, shall be subject to the restrictions of Texas Natural Resource Code Section 91.114(a)(2) for a period of no more than seven years from the date the order entered in this matter becomes final, or until the conditions that constituted the violations herein are corrected or are being corrected in accordance with a schedule to which the Commission and the organization have agreed; and all administrative, civil, and criminal penalties and all cleanup and plugging costs incurred by the State relating to those conditions are paid or are being paid in accordance with a schedule to which the Commission and the organization have agreed, whichever is earlier.
