FINAL ORDER

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on June 14, 1999, and that the respondent, Jeff Einardt, Sole Proprietor, Poor Boy Oilfield Service (671390), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Jeff Einardt, Sole Proprietor, Poor Boy Oilfield Service (671390), ("respondent") was given Notice of Opportunity for Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 (Organization Report) address, which was signed and returned to the Commission.
2. The returned certified receipt (green card) that was attached to the First Amended Original Complaint and the Notice of Opportunity for Hearing, was signed and returned to the Commission on May 24, 1999 and has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. Respondent designated itself to the Commission as the operator of Well No. 1A on the Wood, D.G. Sr. (10165) Lease, Well No. 2 on the Wood, D.G. Sr. -A- (03973) Lease and Well No. 7 on the Wood, D.G. -C- (08488) Lease ("subject wells"/"subject leases") by filing a Form P-4 (Producer's Transportation Authority and Certificate of Compliance) with the Commission, effective on July 1, 1997 for all of the subject leases and wells.
4. The subject wells have been dry or inactive for a period in excess of one year. Commission inspection and/or production reports indicate that the subject wells ceased production on or before May 1996 for the Wood, D.G. Sr. (10165) and the Wood, D.G. -C- (08488) Leases and June 1996 for the Wood, D.G. Sr. -A- (03973) Lease.

OIL AND GAS DOCKET NO. 04-0221332

5. The subject wells have not been properly plugged in accordance with, and are not otherwise in compliance with, Statewide Rule 14.
6. Usable quality water in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject wells. Unplugged wellbores constitute a cognizable threat to public health and safety because of the probability of pollution.
7. The estimated cost to plugging the subject wells is \$3,500.00 for Well No. 1A on the Wood, D.G. Sr. (10165) Lease, \$3,500.00 for the Wood, D.G. Sr. -A- (03973) Lease and \$3,500.00 for the Wood, D.G. -C- (08488) Lease.
8. A Commission district office inspection was conducted on January 20, 1999 for the Wood, D.G. Sr. (10165) Lease. Well No. 1A does not have wellhead assembly and has casing open to the atmosphere.
9. A Commission district office inspection was conducted on January 21, 1999 for the Wood, d.G. Sr. -A- (03973) Lease. Well No. 2 does not have wellhead assembly and has casing open to the atmosphere.
10. A Commission district office inspection was conducted on January 21, 1999 for the Wood, D.G. -C- (08488) Lease. Well No. 7 does not have wellhead assembly and has casing open to the atmosphere.
11. Maintenance of surface control by wellhead assemblies is necessary to prevent the discharge of oil and gas wastes on the subject lease constituting a hazard to public health and safety because the discharges of oil and gas wastes onto land surface can migrate into surface or subsurface waters.
12. The respondent has not demonstrated good faith since it failed to plug or otherwise place the subject wells and subject leases in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
13. The Respondent has a prior history of Commission rule violations including the following docket(s):

Docket No. 04-0217863; Rule 14; Final Order Signed: January 15, 1999.

CONCLUSIONS OF LAW

1. Proper notice was issued by the Railroad Commission to respondent and all other appropriate persons legally entitled to notice.
2. All things necessary to the Commission attaining jurisdiction over the subject matter and the parties in this hearing have been performed or have occurred.
3. Respondent is in violation of Commission Statewide Rules 13(b)(1)(B) and 14(b)(2).
4. Respondent is responsible for maintaining the subject lease in compliance with Rule

OIL AND GAS DOCKET NO. 04-0221332

13(b)(1)(B), which requires that surface control of all wells be maintained with wellhead assemblies.

5. Respondent is responsible for maintaining the subject wells and leases in compliance with all applicable Statutes and Commission rules, specifically Statewide Rules 14, 58, and 79 and Chapters 89 and 91, Texas Natural Resources Code.
6. The documented violations committed by the respondent constitute acts deemed serious, a hazard to the public health, and demonstrate a lack of good faith pursuant to TEX. NAT. RES. CODE ANN. §81.0531(c) (Vernon 1993).
