FINAL ORDER

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on April 25, 2013, and that the respondent, NADCF Recovery Group, Inc. (598932), failed to appear or respond to the Notice of Opportunity for Hearing. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. NADCF Recovery Group, Inc. (598932), ("Respondent"), was given Notice of Opportunity for Hearing by certified mail, addressed to the most recent Form P-5 (Organization Report) address, which was signed.
2. The electronic certified signature receipt containing the Original Complaint and the Notice of Opportunity for Hearing, was signed and returned to the Commission on March 12, 2013. The certified signature receipt is included in the file and has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On February 24, 2012, Respondent, a Corporation, filed an Organization Report (Form P-5) with the Commission reporting that its officers consisted of the following individual(s): Christopher Del Rossi; President; and Christopher T. Allamon, Vice-President.
4. Christopher De Rossi, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
5. Christopher T. Allamon, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.

8. Respondent's P-5 (Organization Report) became delinquent on August 1, 2013. Respondent had a \$50,000 Bond as its financial assurance at the time of its last P-5 renewal.
9. Commission District inspections were conducted on August 11, 2011 and October 20, 2011 for the Smith Gas Unit #1 Lease. The signs or identification required to be posted at the tank battery were missing.
10. Failure to properly identify a well by the posting of the sign required by Statewide Rule 3 has the potential for causing confusion and delay in remedying a violation or emergency and poses a threat to the public health and safety.
11. Production from the subject well ceased in October 2009.
12. The subject well has not been properly plugged in accordance with, and is not otherwise in compliance with Statewide Rule 14.
13. Usable quality groundwater is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject well. Unplugged wellbores constitute a cognizable threat to the public health and safety because of the potential for pollution.
14. The total estimated cost to the State for plugging the subject well is \$42,280.00.
15. The Respondent has not demonstrated good faith since it failed to timely plug or otherwise place the subject lease and subject well in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
