OFFICE OF GENERAL COUNSEL
HEARINGS SECTION**

OIL AND GAS DOCKET NO. 7B-0278466

ENFORCEMENT ACTION FOR ALLEGED VIOLATIONS COMMITTED BY ARLEAND RESOURCES (030807), AS TO THE J.E. REED WEST (25193) LEASE, WELL NO. 1, CALIFORNIA CREEK (CANYON SAND) FIELD, FISHER COUNTY, TEXAS

FINAL ORDER

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on March 7, 2013, and that the respondent, Arleand Resources (030807), failed to appear or respond to the Notice of Opportunity for Hearing. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Arleand Resources (030807), ("Respondent") was given Notice of Opportunity for Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report, which was signed and returned to the Commission.
2. The returned certified receipt attached to Original Complaint and the Notice of Opportunity for Hearing mailed to Respondents, most recent P-5 address, was signed and returned to the Commission on October 10, 2012. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On August 6, 2012, Respondent, filed an Organization Report (Form P-5) with the Commission reporting that its partners consisted of the following individual(s): Mark Carnes, Joe Mark Carnes and Robbi J. Carnes.
4. Mark Carnes, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
5. Joe Mark Carnes, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.

6. Robbi J. Carnes, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
7. The violations of Commission rules committed by respondent are related to safety and the control of pollution.
8. Respondent designated itself to the Commission as the operator of Well No. 1 on the J.E. Reed West (25193) Lease ("subject well"/"subject lease") by filing a Form P-4 (Producers Transportation of Authority and Certificate of Compliance) with the Commission effective on June 1, 2003.
9. According to Commission records the Respondent's Form P-5 (Organization Report) became delinquent on May 1, 2013. Respondent had a \$25,000.00 Letter of Credit as its financial assurance at the time of its last P-5 renewal.
10. Well No. 1 ceased production in February 2009.
11. The subject well has not been properly plugged in accordance with, and is not otherwise in compliance with, Statewide Rule 14.
12. The Statewide 14B2 plugging extension for Well No. 1 on the J.E. Reed West (25193) Lease was denied on April 30, 2009 for an inactive P-5 status.
13. Usable quality groundwater in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject wells. Unplugged wellbores constitute a cognizable threat to the public health and safety because of the probability of pollution.
14. The total estimated cost to the State of plugging the subject well is \$50,800.00.
15. Commission District inspections were conducted on May 16, 2012, June 26, 2012 and August 1, 2012 for the J.E. Reed West (25193) Lease. Respondent caused or allowed an unauthorized discharge of hydrocarbon to affect an area measuring approximately 15' x 6' x 4" north of the 300 barrel water tank. Inspection reports further showed that Respondent caused or allowed a separate unauthorized discharge of hydrocarbon to affect an area measuring approximately 12' x 6' x 4" east of the 300 barrel water tank.
16. No permit has been issued to the Respondent for the discharge of oil and gas wastes on or from the subject lease.
17. The unpermitted discharges of oil and gas wastes or other substances or materials on the subject lease constitute a hazard to public health and safety because leaks and spills of oil and produced waters onto soils can migrate into surface water bodies causing contamination or can leach into the ground and percolate through soils into groundwater supplies.

18. The Respondent has not demonstrated good faith since it failed to timely place the subject lease and subject wells in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
