

**RAILROAD COMMISSION OF TEXAS  
OFFICE OF GENERAL COUNSEL  
HEARINGS SECTION**

**OIL AND GAS DOCKET  
NO. 01-0275213**

**IN THE TWO M (GEORGETOWN) FIELD,  
MAVERICK COUNTY, TEXAS**

**ORDER NUNC PRO TUNC**

**ADOPTING FIELD RULES FOR THE  
TWO M (GEORGETOWN) FIELD  
MAVERICK COUNTY, TEXAS**

In conference at its office in Austin, Texas, the Railroad Commission of Texas took up for consideration in its Final Order entered on May 8, 2012, the matter of adopting Field Rules for the Two M (Georgetown) Field, Maverick County, Texas. The Commission finds that, due to clerical error, the Final Order entered on May 8, 2012, incorrectly adopted an acreage allocation formula when it was intended for the field to remain under the Statewide density rule.

Accordingly, it is **ORDERED** that the Final Order in Docket No. 01-0275213 be, and the same is hereby amended *nunc pro tunc*, so that the Field Rules for the Two M (Georgetown) Field correctly states that the field is to remain under the Statewide density rule and the order now reads as follows:

**RULE 1:** The entire correlative interval from 2,200 feet to 2,865 feet as shown on the log of The Exploration Resources Company - Burr C Lease, Well No. 1-93 (API No. 42-323-32959), Section 93, Block 4, I&GN RR Co. Survey, A-901, Maverick County, Texas, shall be designated as a single reservoir for proration purposes and be designated as the Two M (Georgetown) Field.

**RULE 2:** No well for oil or gas shall hereafter be drilled nearer than THREE HUNDRED THIRTY (330) feet to any property line, lease line, or subdivision line. There is no between well spacing limitation. The aforementioned distances in the above rule are minimum distances to allow an operator flexibility in locating a well, and the above spacing rule and the other rules to follow are for the purpose of permitting only one well to each drilling and proration unit in either field. Provided however, that the Commission will grant exceptions to permit drilling within shorter distances and drilling more wells than herein prescribed whenever the Commission shall have determined that such exceptions are necessary either to prevent waste or to prevent the confiscation of property. When exception to these rules is desired, application therefore shall be filed and will be acted upon in accordance with the provisions of Commission Statewide Rules 37 and 38, which applicable provisions of said rules are incorporated herein by reference. The standard drilling unit shall remain FORTY (40) acres.

In applying this rule, the general order of the Commission with relation to the subdivision of property shall be observed.

It is further **ORDERED** that the allocation formula in the Two M (Georgetown) Field will remain suspended. The allocation formula may be reinstated administratively, in accordance with the Commission's rules, if the market demand for gas in the Two M (Georgetown) Field drops below 100% of deliverability.

Done this 17<sup>th</sup> day of July, 2012.
