

**RAILROAD COMMISSION OF TEXAS  
OFFICE OF GENERAL COUNSEL**

**OIL AND GAS DOCKET  
NO. 06-0246257**

**IN THE STOCKMAN (TRAVIS PEAK)  
FIELD, SHELBY COUNTY, TEXAS**

**CORRECTED FINAL ORDER  
AMENDING THE FIELD RULES  
FOR THE STOCKMAN (TRAVIS PEAK) FIELD  
SHELBY COUNTY, TEXAS**

The Commission finds that after statutory notice in the above-numbered docket heard on March 29, 2006, the presiding examiner has made and filed a report and recommendation containing findings of fact and conclusions of law, for which service was not required; that the proposed application is in compliance with all statutory requirements; and that this proceeding was duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas.

The Commission, after review and due consideration of the examiner's report and recommendation the findings of fact and conclusions of law contained therein, hereby adopts as its own the findings of fact and conclusions of law contained therein, and incorporates said findings of fact and conclusions of law as if fully set out and separately stated herein.

Therefore, it is ordered that Rule 1 of the field rules adopted in Final Order No. 6-68,075, effective December 19, 1977, as amended, for the Stockman (Travis Peak) Field, Shelby County, Texas, is hereby amended as follows:

**RULE 1:** No well for oil or gas shall hereafter be drilled nearer than FOUR HUNDRED SIXTY SEVEN (467) feet to any property line, lease line, or subdivision line and no well shall be drilled nearer than NINE HUNDRED THIRTY THREE (933) feet to any applied for, permitted or completed well in the same reservoir on the same lease, pooled unit or unitized tract. The aforementioned distances in the above rule are minimum distances to allow an operator flexibility in locating a well, and the above spacing rule and the other rules to follow are for the purpose of permitting only one well to each drilling and proration unit. Provided however, that the Commission will grant exceptions to permit drilling within shorter distances and drilling more wells than herein prescribed whenever the Commission shall have determined that such exceptions are necessary either to prevent waste or to prevent the confiscation of property. When exception to these rules is desired, application therefor shall be filed and will be acted upon in accordance with the provisions of Commission Statewide Rules 37 and 38, which applicable provisions of said rules are incorporated herein by reference. The standard drilling unit for oil wells shall remain 40 acres.

In applying this rule, the general order of the Commission with relation to the subdivision of property shall be observed.

It is further ordered that the allocation formula for the Stockman (Travis Peak) Field shall remain suspended. The allocation formula may be reinstated administratively, in accordance with the Commission's rules, if the market demand for gas in the Stockman (Travis Peak) Field drops below 100% of deliverability.

Done this 16<sup>th</sup> day of May, 2006.
