Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure, 16 TEX. ADMIN. CODE § 1.49, and after being duly submitted to the Commission at a conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

**FINDINGS OF FACT**

1. JMC Resources Corp (Operator No. 427742), (“Respondent”), was sent the Original Complaint and Notice of Opportunity for Hearing by certified and first class mail, addressed to the most recent Commission Form P-5 (Organization Report) address. Respondent was sent the Original Complaint and Notice of Hearing by certified and first class mail, addressed to the most recent Commission Form P-5 (Organization Report) address. Joel Monroe Cutler, Respondent’s President, was sent the Original Complaint and Notice of Hearing by certified and first class mail, addressed to his last known address.
2. The certified mail envelope containing the Original Complaint and the Notice of Hearing sent to Respondent and to Joel Monroe Cutler, were both returned unclaimed on September 3 and 17, 2015. The first class mail was not returned. Record of the return of certified mail has been on record with the Commission for more than 15 days, exclusive of the day of receipt and day of issuance. Respondent was given more than 30 days’ notice of the Original Complaint and Notice of Opportunity for Hearing. Respondent has not entered into an agreed settlement order, filed an answer, or requested a hearing.
3. On November 12, 2011, Respondent, a limited liability company, filed a Form P-5 (Organization Report) with the Commission reporting that its officers consist of the following individual: Joel Monroe Cutler, President.

4. Joel Monroe Cutler was in a position of ownership or control of Respondent, as defined in section 91.114 of the Texas Natural Resources Code, during the time period of the violations of Commission rules committed by Respondent.
5. Respondent's P-5 (Organization Report) is delinquent. Respondent had a \$25,000 cash deposit as its financial assurance at the time of its last P-5 annual renewal submission.
6. The violations of Commission rules committed by Respondent are related to safety and the control of pollution.
7. Respondent designated itself to the Commission as the operator of the Weber, Paul Lease (Lease ID No. 19651), Well No. 1, by filing a Commission Form P-4 (Certificate of Compliance and Transportation Authority), effective March 23, 1987, approved June 17, 1987.
8. Commission inspection reports made on December 18, 2013 and March 31, 2014, and zero production reports filed by Respondent with the Commission since August 2009, show the Weber, Paul (19651) Lease, Well No. 1 has been inactive for a period greater than one year. Production from the subject well ceased on or before December 18, 2013.
9. No work-overs, re-entries, or subsequent operations have taken place on the subject well within the last twelve months; the subject well has not been properly plugged in accordance with Statewide Rule 14, 16 TEX. Unplugged wellbores, in violation of Statewide Rules 14(b)(2), constitute a cognizable threat to the public health and safety because of the potential of pollution.
11. The total estimated cost to the State for plugging the Weber, Paul Lease, Well No. 1 is \$47,867.00.
12. Respondent has no prior history of violations of Commission rules.
