**ENFORCEMENT ACTION AGAINST ATHENA ENERGY, INC. (OPERATOR NO. 036051) FOR VIOLATIONS OF STATEWIDE RULES ON THE ANDERSON (PERMIT NO. 543803) LEASE, WELL NO. 2H, WILDCAT FIELD, HANSFORD COUNTY, TEXAS**

---

**FINAL ORDER**

The Railroad Commission of Texas (“Commission”) finds that after statutory notice the captioned enforcement proceeding was heard by a Commission Administrative Law Judge on December 10, 2015 and that the respondent, Athena Energy, Inc., failed to appear or respond to the Notice of Opportunity for Hearing. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure, 16 TEX. ADMIN. CODE § 1.49, and after being duly submitted to the Commission at a conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

**FINDINGS OF FACT**

1. Athena Energy, Inc. (“Respondent”), Operator No. 036051, was sent the Original Complaint and Notice of Opportunity for Hearing by certified and first class mail, addressed to the most recent Commission Form P-5 (Organization Report) (“Form P-5”) address. Respondent’s officer, as identified on Respondent’s Form P-5—Rodney Schroder, President, and Kay D. Loomis, Resident Agent—were provided the Original Complaint and Notice of Opportunity for Hearing by certified and first class mail, addressed to their last known address.
2. The certified mail envelopes containing the Original Complaint and the Notice of Opportunity for Hearing mailed to Kay D. Loomis, Resident Agent, was returned to the Commission on May 24, 2016. The certified mail envelope mailed to Rodney Schroder, President, was received on May 18, 2016. Record of the return and delivery of certified mail has been on file with the Commission for more than 15 days, exclusive of the day of receipt and day of issuance. Respondent was given more than 30 days’ notice of the Original Complaint and Notice of Opportunity for Hearing. Respondent has not entered into an agreed settlement order, filed an answer, or requested a hearing.
3. On October 13, 2013, Respondent, a corporation, filed a Form P-5 (Organization Report) with the Commission reporting that its officers consist of the following individuals: Rodney L. Schroder, President and CEO.

4. Rodney L. Schroder was in a position of ownership or control of Respondent, as defined in section 91.114 of the Texas Natural Resources Code, during the time period of the violations of Commission rules committed by Respondent.
5. Respondent's P-5 (Organization Report) is delinquent. Respondent had a \$50,000 letter of credit from First State Bank, as its financial assurance, that expired on November 30, 2014.
6. The violations of Commission rules committed by Respondent are related to safety and the control of pollution.
7. Respondent designated itself to the Commission as the operator of the ANDERSON (543803) Lease, Well No. 2H by filing a Commission Form W-1 (Application for Permit to Drill, Deepen, Plug Back, or Re-Enter), filed March 29, 2004, permit issued April 7, 2004.
8. Commission inspection reports made on April 4, 2013 and January 14, 2016, and either reports filed by Respondent with the Commission reflecting zero production, or the absence of production reports filed by the Respondent with the Commission since the completion of the well, show that the Anderson Lease, Well No. 1 has been inactive for a period greater than one year.
9. No work-overs, re-entries, or subsequent operations have taken place on the subject well within the last twelve months; the subject well has not been properly plugged in accordance with Statewide Rule 14, 16 TEX. ADMIN. CODE § 3.14 and no plugging extension is in effect for the subject well as allowed by Statewide Rule 14. The subject well is not otherwise in compliance with Statewide Rule 14.
10. Usable quality groundwater in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject wells. Unplugged wellbores, in violation of Statewide Rules 14(b)(2), constitute a cognizable threat to the public health and safety because of the potential of pollution.
11. The total estimated cost to the State for plugging the Anderson Lease, Well No. 2H is \$54,772.30.
12. Commission records and inspection reports made on April 4, 2013, on the Anderson Lease show that Well No. 2H was completed, show that Well No. 2H was completed, but Respondent has not filed the required completion report, did not file the completion report within ninety days after completion of the well or within one hundred fifty days after the date on which the drilling operation is completed, whichever is earliest, or within thirty days of plugging a dry hole. The April 4, 2013, inspection showed no wellhead, but a 4 and ½ casing sticking out of the ground with a 2" ball valve. Commission records show that surface casing was set on May 9, 2004, with a spud date

of May 8, 2004. The January 14, 2016, inspection shows that the well is under a blue plastic barrel and has 5 and ½” casing sticking out of the ground, with a swage and ball valve at the top of the casing. During the inspection the ball valve was leaking gas, as was the junction of the wage and collar on the casing.

13. Should a well need to be re-entered for any reason, the wellbore documentation provided in those reports as set forth in Statewide Rule 16(b) is necessary to safely and efficiently carry out the replugging, recompletion, reworking, or other action.
14. Respondent has no prior history of violations of Commission rules.

### **CONCLUSIONS OF LAW**

violation, with each day such violations continued constituting a separate violation.

9. An assessed administrative penalty in the amount of SEVEN THOUSAND SIX HUNDRED AND NINETY DOLLARS (\$7,690.00) is justified considering the facts and violations at issue.
10. As persons in a position of ownership or control of Respondent at the time Respondent violated Commission rules related to safety and the control of pollution, Rodney Schroder, and any other organization in which he either may hold a position of ownership or control, are subject to the restriction in section 91.114(a)(2) of the Texas Natural Resources Code.
