APPLICATION OF TEXAS GAS SERVICE COMPANY FOR TEST YEAR 2017 ANNUAL INTERIM RATE ADJUSTMENT FOR THE UNINCORPORATED AREAS OF THE GULF COAST SERVICE AREA.	§ § § § §	GAS UTILITIES DOCKET NO. 10781
--	-----------------------	---

INTERIM RATE ADJUSTMENT ORDER

Notice of Open Meeting to consider this Order was duly posted with the Secretary of State within the time period provided by law pursuant to TEX. GOV'T CODE ANN Chapter 551. The Railroad Commission of Texas adopts the following findings of fact and conclusions of law and orders:

FINDINGS OF FACT

Background

1. Texas Gas Service Company, a division of ONE Gas, Inc., (“TGS” or the “Company”) is a “gas utility,” as that term is defined in the Texas Utilities Code and is subject to the jurisdiction of the Railroad Commission of Texas (“Commission”).
2. TGS owns and operates a natural gas distribution system.
3. On October 19, 2018, TGS filed an application for an annual interim rate adjustment (“IRA”) to its rates for gas service to customers of the environs of the Company’s Gulf Coast Service Area.
4. TGS proposed the IRA for all customer classes become effective on December 18, 2018.
5. On October 30, 2018, the Commission suspended implementation of TGS’s proposed IRA until February 1, 2019, which would be 45 days following the 60th day after the application was considered complete.
6. Neither TEX. UTIL. CODE § 104.301 nor 16 Texas Administrative Code § 7.7101 provides the opportunity for parties to intervene in the Commission’s review of an application for an annual IRA.

7. 16 TEX. ADMIN. CODE § 7.7101 allows written comments or a protest, concerning the proposed IRA, to be filed with Gas Services.
8. No letters of protest have been received as of the date of this order.
9. This docket represents the second annual IRA for TGS since Gas Utility Docket (“GUD”) No. 10488.¹
10. Until promulgation of TEX. UTIL. CODE § 104.301, a utility could not increase its rates subject to the Commission’s jurisdiction without filing with the Commission a formal statement of intent rate case, including a comprehensive cost of service rate review.
11. The proposed IRA will allow TGS an opportunity to recover, subject to refund, a return on investment, depreciation expense, and related taxes on the incremental cost of infrastructure investment since its most recent rate case, GUD No. 10488, without the necessity of filing a statement of intent rate case and without review by the Commission of TGS’s comprehensive cost of service.

Applicability

12. This docket applies to only those rates over which the Commission has original jurisdiction within the Gulf Coast Service Area.
13. TGS’s average monthly customer count in the Gulf Coast Service Area for 2017 was 42,791 residential customers, 1,831 commercial customers, 270 public authority customers, and four industrial customers.
14. TGS’s average monthly customer count in the Gulf Coast Service Area for 2017 subject to this order was 1,155 residential customers, 30 commercial customers, four public authority customers, and zero industrial customers.

¹ *Statement of Intent of Texas Gas Service Company, a Division of ONE Gas, Inc., to Increase Gas Utility Rates within the Unincorporated Areas of the Galveston Service Area (GSA) and South Jefferson County Service Area (SJCSA).*

Most Recent Comprehensive Rate Case

15. TGS's most recent rate case for the area in which the IRA will be implemented is GUD No. 10488, *Statement of Intent of Texas Gas Service Company, a Division of ONE Gas, Inc., to Increase Gas Utility Rates within the Unincorporated Areas of the Galveston Service Area (GSA) and South Jefferson County Service Area (SJCSA)*.
16. GUD No. 10488 was filed on December 30, 2015.
17. The Commission signed the GUD No. 10488 Final Order on May 3, 2016, approving and adopting the settlement.
18. The following chart shows the factors that were established in GUD No. 10488 to calculate the return on investment, depreciation expense, ad valorem taxes, revenue related taxes, and federal income taxes for TGS as applied in this IRA proceeding.

GUD No. 10488 CALCULATION FACTORS

Factor	Percentage
Rate of Return	7.291%
Depreciation Rate	By FERC Account ²
Federal Income Tax Rate	35% ³
Revenue Related Taxes	NA ⁴

Interim Rate Adjustment

19. The revenue amounts to be recovered through TGS's proposed annual IRA are incremental to the revenue requirement established in TGS's most recent rate case for the area in which the IRA is to be implemented, GUD No. 10488, and subsequent IRAs.
20. Under 16 TEX. ADMIN. CODE § 7.7101(f)(3), for the first IRA following the most recent rate case, a utility may adjust its rates based on the difference between invested capital at the end of the most recent rate case test-year and the invested capital at the end of the calendar year following the end of the most recent rate case test-year.
21. In GUD No. 10666, the first IRA following TGS's most recent rate case in this service area, GUD No. 10488, TGS adjusted its rates based on the difference between its invested capital at the end of its Statement of Intent rate case test year, June 30, 2015 updated for known and

² Staff review confirms that the Company used the appropriate depreciation rates as approved in GUD No. 10488 in this docket.

³ As a result of the Tax Cuts and Jobs Act of 2017, TGS voluntarily calculated this IRA using a 21% federal corporate income tax rate.

⁴ Revenue related taxes are not reflected here because they are recovered separately.

- measurable changes through December 31, 2015, and the incremental invested capital at the end of December 31, 2016.
22. In this docket, the second IRA, TGS adjusted its rates based on the difference between invested capital from December 31, 2016 to December 31, 2017.
 23. TGS seeks approval from the Commission for an adjustment to its revenue based on incremental net utility plant investment with regard to the following components: return on investment; depreciation expense; ad valorem taxes; and federal income taxes. The incremental change in revenue requirement to be recovered through this IRA filing from all rate classes using the approved component factors is **\$191,597** (Exhibit B), of which **\$4,638** is attributed to customers subject to this order.
 24. The value of TGS's invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment for TGS's IRAs.
 25. TGS's incremental net utility plant investment is **\$1,410,536** (Exhibit B).
 26. TGS is required to use the same factors to calculate the interim return on investment, depreciation expense, ad valorem taxes, and federal income taxes as those established or used in the final order setting rates in TGS's most recent rate case for the area in which the IRA is to be implemented, GUD No. 10488.
 27. TGS filed the Commission's Annual Earnings Monitoring Report ("EMR") as required by 16 TEX. ADMIN. CODE § 7.7101. TGS's actual rate of return was 7.142% for the test year ending December 31, 2017, which is lower than the 7.291% allowed rate of return established in GUD No. 10488.
 28. GUD No. 10488, TGS's most recent Statement of Intent rate case for the Gulf Coast Service Area environs and the basis for the key factors in an IRA calculation, was approved by the Commission on May 3, 2016. Customer Charges are shown in Column B of the table below.
 29. Interim rates approved in GUD No. 10666, the first IRA application for the Gulf Coast Service Area environs, are shown in Column C below.
 30. This docket, GUD No. 10781, is the second IRA for the Gulf Coast Service Area environs. The proposed IRA charges are shown in Column D below.
 31. When the Customer Charge as established in Gas Utilities Docket No. 10488 and Interim Rate Adjustments (Columns C and D) are added, the resulting customer charges for affected customer classes are as shown in Column E of the table below.

Gulf Coast Service Area Customer Charges and Interim Rate Adjustment (IRA)

A	B	C	D	E
Customer Class	GUD 10488	GUD 10666 (2016 IRA)	GUD 10781 (2017 IRA)	Total Customer Charge

Commercial	\$ 54.00	\$ 3.57	\$ 1.48	\$ 59.05
Public Authority	\$ 110.00	\$ 4.66	\$ 1.97	\$ 116.63
Industrial	\$ 110.00	\$ 85.98	\$ 29.54	\$ 225.52
Commercial Transportation	\$ 300.00	\$ 3.57	\$ 1.48	\$ 305.05
Public Authority Transportation	\$ 300.00	\$ 4.66	\$ 1.97	\$306.63
Industrial Transportation	\$ 300.00	\$ 85.98	\$ 29.54	\$415.52

32. TGS filed its Annual Project Report as required by 16 TEX. ADMIN. CODE § 7.7101.
1. Net utility plant investment included in this docket totaled \$1,410,536.⁵
 2. Gross capital project additions totaled \$4,337,148.⁶
 3. The percentage of additions in this filing that are safety related is 46.48%.⁷
33. TGS proposed the IRA as a flat rate to be applied to the monthly customer charges rather than as a volumetric rate to be applied to the initial block usage rates.
34. TGS is required to show its annual IRAs on its customers' monthly billing statements as a surcharge.
35. The proposed IRA does not require an evidentiary proceeding; rather, TEX. UTIL. CODE § 104.301 and 16 TEX. ADMIN. CODE § 7.7101 require the regulatory authority to review a utility's method of calculating the IRA.
36. Due process protections are deferred until TGS files its next full statement of intent rate case.

Per 16 TEX. ADMIN. CODE § 7.7101(i), all amounts collected from customers under an IRA tariff are subject to refund until the conclusion of the next rate case.

Review of Interim Rate Adjustment

It is reasonable for the Commission to approve use of the allocation methodology used to determine TGS’s overall cost of service (less other revenue, gas cost, and revenue related taxes) as determined in its most recent rate case. The following overall cost of service allocation factors for use in the calculation of TGS’s IRA are reasonable:

Customer Class	Allocation Factors
Residential	0.7895
Commercial	0.1698
Public Authority	0.0333
Industrial	0.0074

44. TGS's proposed customer counts comply with TEX. UTIL. CODE § 104.301, and with 16 TEX. ADMIN. CODE § 7.7101. Reimbursements of Expense

46. As provided for in the statute and the rule, a gas utility that implements an IRA is required to reimburse the Commission for the utility's proportionate share of the Commission's annual costs related to the administration of the IRA mechanism.
47. After the Commission has finally acted on TGS's application for an IRA, the Director of the Oversight and Safety Division will estimate TGS's proportionate share of the Commission's annual costs related to the processing of such applications.
46. In making the estimate of TGS's proportionate share of the Commission's annual costs related to the processing of such applications, the Director will take into account the number of utilities the Commission reasonably expects to file for IRAs during the fiscal year, and the costs expected to be incurred in processing such applications.

47. TGS is required to reimburse the Commission for the amount determined by the Director of the Oversight and Safety Division, within thirty days after receipt of notice of the amount of the reimbursement.
