## HEARINGS DIVISION

**OIL & GAS DOCKET NO. 08-0311305**

---

**APPLICATION OF XTO ENERGY, INC. FOR AN EXCEPTION TO STATEWIDE RULE 32 FOR THE GOLDSMITH SAN ANDRES UNIT (LEASE NO. 02020), GSAU 2-2 TB, GSAU 2-2 SAT 1, GSAU CTB, GSAU CO2 PHASE II, GSAU CO2 PHASE I, GSAU 1-14 SAT, GSAU 1-38 PO AND GSAU 1-147 SAT, IN THE GOLDSMITH FIELD, ECTOR COUNTY, TEXAS.**

---

**HEARD BY:** Peggy Laird, P.G. – Technical Examiner  
Clayton J. Hoover – Administrative Law Judge

**REVIEWED BY:** Richard Eyster, P.G. – Technical Examiner  
Kristi M. Reeve – Administrative Law Judge

**HEARING DATE:** August 2, 2018

**APPEARANCES:**

David Gross  
Dale Miller  
Sherry Pack  
Patty Urias

**REPRESENTING:**

XTO Energy, Inc

**EXAMINERS' REPORT AND RECOMMENDATION**

**STATEMENT OF THE CASE**

XTO Energy, Inc. ("XTO") seeks exception to 16 TAC 3.32 to flare casinghead gas ("gas") on an emergency basis as needed for the Goldsmith San Andres Unit (Lease No. 02020), GSAU 2-2 TB, GSAU 2-2 SAT 1, GSAU CTB, GSAU CO2 Phase II, GSAU CO2 PHASE I, GSAU 1-14 SAT, GSAU 1-38 PO and GSAU 1-147 SAT in the Goldsmith Field, Ector County, Texas. The wells connected to the tank battery are connected to sales lines and flaring is limited to intermittent emergency conditions, such as compressor failure, pipeline capacity limitations, maintenance down-time, or disruptive events. The application was not protested. The Technical Examiner and Administrative Law Judge (collectively, "Examiners") recommend XTO's application be granted.

### **DISCUSSION OF THE EVIDENCE**

Statewide Rule 32 governs the utilization of gas well gas and casinghead gas produced by oil and gas wells under the jurisdiction of the Railroad Commission.

XTO received flare permits by Final Order No. 08-0301126 authorizing the emergency flaring of casinghead gas ("gas") from July 26, 2016 to July 25, 2018, at the volumes shown in Appendix 1.

XTO is now requesting a two-year authority to flare casinghead gas on an intermittent basis as shown in Appendix 1. All of the wells are connected to gas sales lines and XTO is selling the gas most of the time. However, due to issues with lease equipment or pipeline capacity, XTO frequently finds itself of being in the position to either flare gas or shut-in full well stream production from multiple wells until the particular event is resolved. Without the requested flaring authority XTO stated that they would have to shut in the wells which may cause damage to the wells and reservoir, resulting in the waste of hydrocarbons.

XTO agreed that, pursuant to the provisions of Texas Government Code § 2001.144(a)(4)(A), this Final Order shall be final and effective on the date a Master Order relating to this Final Order is signed.

### **FINDINGS OF FACT**

1. Notice of this hearing was given to all parties entitled to notice at least ten (10) days prior to the date of the hearing.
2. The hearing was not protested.
3. XTO operates the wells, leases and flare facility subject to this application.
4. All of the wells are connected to gas gathering and transmission systems.
5. XTO sells the casinghead gas produced from the subject wells.
6. Occasionally, gas gathering system issues may interrupt XTO's ability to market gas produced from its wells. These interruptions may be caused by compressor failure, pipeline capacity limitations, maintenance down-time, or other disruptive events.
7. When disruptions occur, XTO must either curtail all produced hydrocarbon streams or flare the casinghead gas streams. XTO seeks authority to flare gas on an emergency basis only.
8. Flaring the casinghead gas streams allows XTO to continue to produce liquid hydrocarbons from the subject wells, preventing potential waste of reserves.

9. XTO has obtained a prior final order to flare casinghead gas from most of the subject facilities for period of two years.
10. XTO requested hearings to extend the flaring authority before the administrative authority expired.

### CONCLUSIONS OF LAW

1. Resolution of the subject application is a matter committed to the jurisdiction of the Railroad Commission of Texas. Tex. Nat. Res. Code § 81.051.
2. All notice requirements have been satisfied. 16 Tex. Admin. Code §§ 1.43 and 1.45.
3. XTO Energy Inc. has met the requirements in 16 Tex. Admin. Code § 3.32 for an exception to the limitations in that section regarding the requested authority to flare casinghead gas produced from the wells connected to the subject flare point listed in Appendix 1.
4. XTO agreed that, pursuant to the provisions of Texas Government Code § 2001.144(a)(4)(A), this Final Order shall be final and effective on the date a Master Order relating to this Final Order is signed.

### EXAMINERS' RECOMMENDATION

Based on the above findings of fact and conclusions of law, the Examiners recommend the Commission enter an order approving the application as requested by XTO Energy Inc.

Respectfully submitted,

  
Richard Eyster, P. G.  
Technical Examiner

  
Kristi M. Reeve  
Administrative Law Judge
