OIL AND GAS DOCKET NO. 08-0318488

APPLICATION OF WPX ENERGY PERMIAN, LLC (942623) FOR AN EXCEPTION TO STATEWIDE RULE 32 FOR THE YMC 9 CENTRAL FLARE POINT (COMMINGLING PERMIT NO. (8345), WELL NO. 1H IN THE PHANTOM (WOLFCAMP) FIELD (71052900), LOVING COUNTY, TEXAS

FINAL ORDER

The Railroad Commission of Texas ("Commission") finds that after notice in the above-docketed case was provided to all parties entitled to notice, a hearing was heard on May 17, 2019 by a Commission Technical Examiner and Administrative Law Judge. This proceeding was duly submitted to the Commission at a conference held in its offices in Austin, Texas. After considering this matter, the Commission adopts the following findings of fact and conclusions of law.

Findings of Fact

1. WPX Energy Permian, LLC ("WPX") seeks a two-year exception to Statewide Rule 32 ("Statewide Rule 32") for authority to flare a maximum of 500 thousand cubic feet per day ("Mcf/d"), limited to 3,000 thousand cubic feet per month ("Mcfm"), of gas well gas from April 2, 2019, to April 1, 2021, from the comingled flare stack located at the YMC 9 Central Flare Point (Commingling Permit No, 8345), in the Phantom (Wolfcamp) Field, Loving County, Texas.
2. WPX submitted a request for hearing on the Statewide Rule 32 exception flaring authority on February 26, 2019.
3. WPX was previously granted an administrative exception to Statewide Rule 32 to flare a maximum gas well gas volume of 500 Mcfd at the YMC 9 Central Flare Point under Flare Permit No. 34913, expiring April1, 2019.
4. On April 11, 2019 the Hearings Division of the Commission sent a Notice of Hearing ("Notice") to Applicant and all offsetting operators in the field setting a hearing date of May 17, 2019. Consequently, the parties received more than 10 days' notice. The Notice contains (1) a statement of the time, place, and nature of the hearing; (2) a statement of the legal authority and jurisdiction under which the hearing is to be held; (3) a reference to the particular sections of the statutes and rules involved; and (4) a short and plain statement of the matters asserted. The hearing was held on May 17, as noticed. Applicant appeared and participated at the hearing. No one appeared in protest.

5. The gas from the Lease is gathered and purchased by Stateline Gathering, LLC ("Stateline").
6. Approximately 1.0% of total Lease gas production being flared.
7. Restrictions in capacity result in Stateline's gas pipeline not being able to take 100% of the Lease gas production.
8. Based on a table of historic Lease gas disposition, the estimated volume of gas well gas to be flared would be a maximum of 500 Mcfd, limited to 3,000 Mcfm.
9. The requested Statewide Rule 32 exception to flare a maximum of 500 Mcfd, limited to 3,000 Mcfm, of gas well gas is necessary for WPX to produce the recoverable hydrocarbon liquids from the Lease.
10. At the hearing, WPX agreed on the record that the Final Order in this docketed case is to be final and effective when a Master Order relating to this Final Order is signed.
