

RAILROAD COMMISSION OF TEXAS
OFFICE OF GENERAL COUNSEL

OIL AND GAS DOCKET NO. 7B-0316687

ENFORCEMENT ACTION AGAINST TOMCO OIL & GAS INC. (OPERATOR NO. 861759) FOR VIOLATIONS OF STATEWIDE RULES ON THE TRAWEEK, T. H. (16743) LEASE, WELL NOS. 2, 5 B, 7, AND 8, BROWN COUNTY REGULAR FIELD, BROWN COUNTY, TEXAS

FINAL ORDER

The Railroad Commission of Texas ("Commission") finds that statutory notice of the captioned enforcement proceeding was provided pursuant to Commission rules, and that the Respondent, Tomco Oil & Gas Inc., failed to appear or respond to the **Notice of Opportunity for Hearing**. Pursuant to § 1.25 of the Commission's General Rules of Practice and Procedure, 16 Texas Administrative Code § 1.25, and after being duly submitted to the Commission at a Conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Tomco Oil & Gas Inc. ("Respondent"), Operator No. 861759, was sent the Original Complaint and Notice of Opportunity for Hearing by certified and first-class mail, addressed to the most recent Commission Form P-5 (Organization Report) ("Form P-5") address.
2. The certified mail envelope containing the Original Complaint and Notice of Opportunity for Hearing addressed to the Respondent was received on June 6, 2019. The first-class mail was not returned. Record of the delivery and return of certified mail has been on file with the Commission for more than 15 days, exclusive of the day of receipt and day of issuance. Respondent was given more than 30 days' notice of the Original Complaint and Notice of Opportunity for Hearing. Respondent has not entered into an agreed settlement order, filed an answer or requested a hearing.
3. On May 2, 2018, Respondent, a corporation, filed a Form P-5 with the Commission reporting that its officer consists of the following individual: Tomlinson, Earl R. – President/Secretary
4. Respondent's Form P-5 is delinquent. Respondent had a \$25,000.00 bond as its financial assurance at the time of the last Form P-5 annual renewal submission.
5. Respondent designated itself to the Commission as the operator of the Traweek, T. H. (16743) Lease, Well Nos. 2, 5 B, 7, and 8, by filing a Commission Form P-4 (Certificate of Compliance and Transportation Authority), effective August 15, 2005, approved November 21, 2005.
6. Commission inspection reports made on July 10, 2018, August 16, 2018, September 28, 2018 and November 5, 2018, for the Traweek, T. H., (16743) Lease, show the Commission's access to the subject lease was prevented because of a locked gate at the lease entrance.

7. In the event of pollution or safety violation or other emergency, the lack of access to the lease, as required by Statewide Rule 2(a), may cause confusion as to the actual location of a violation or emergency. Such confusion can cause delays in containing and remediating the violation or emergency.
8. Commission inspection reports made on July 10, 2018, August 16, 2018, September 28, 2018, November 5, 2018 and June 19, 2019, for the Traweek, T. H. (16743) Lease show the sign or identification required to be posted at the lease entrance is missing.
9. The lack of legible signs and identification displaying correct information, as set forth in Statewide Rule 3(1), may cause confusion as to the responsible operator to be contacted and the actual location of a violation or emergency, which can result in delays in remedying a violation or emergency.
10. Commission records show Well No. 2, of the Traweek, T. H. (16743) Lease is a permitted disposal well. Commission records show the Traweek, T. H. (16743) Lease has been inactive for a period greater than one year. Production from and disposal/injection into the subject lease ceased in March 2007.
11. No workovers, re-entries, or subsequent operations have taken place on the subject wells within the last twelve months; the subject wells have not been properly plugged in accordance with Statewide Rule 14, [16 Tex. Admin Code § 3.14]; and no plugging extensions are in effect for the subject wells as allowed by Statewide Rule 14.
12. Usable quality groundwater in the area can become contaminated by migrations or discharges of saltwater and other oil and gas waste from the subject wells. Unplugged wellbores, in violation of Statewide Rule 14(b)(2), constitute a cognizable threat to the public health and safety because of the potential of pollution.
13. The total estimated cost to the State for plugging the Traweek, T. H. (16743) Lease Well Nos. 2, 5 B, 7, and 8, is \$49,616.00.
14. The Respondent has no prior history of violations of Commission Rules.

9. Pursuant to Texas Natural Resources Code § 81.0531, the Commission may assess administrative penalties against Respondent for the subject violations of up to \$10,000 per day for each violation, with each day such violations continued constituting a separate violation.
