of Law .....8

## **I. Statement of the Case**

Maverick Energy Group, Inc. ("Operator" or "Maverick"), Operator No. 534219, seeks a determination, contrary to Railroad Commission ("Commission" or "RRC") staff's ("Staff's") prior determination, that it is in compliance with the Commission's inactive well rule and should thus be allowed to renew its Commission Form P-5 *Organization Report* ("Form P-5"). Harold and Mary Sawey ("Protestants"), surface owners where some of the subject wells are located, protested in opposition to Maverick's application.

The parties agree Operator is not in compliance with inactive well requirements. At the hearing, Operator acknowledged it is not in compliance and seeks a payment plan and more time to get into compliance.

Protestants maintain that the subject wells on their property and surrounding area are in a dilapidated state. They claim there are leaks on their property and that there is a lack of vegetation in areas of the leaks.

The Administrative Law Judge and Technical Examiner (collectively "Examiners") respectfully submit this Proposal for Decision ("PFD") and recommend the Commission enter an order denying the renewal of Operator's Form P-5. The Examiners also recommend that Operator be ordered to place the Wells into compliance with Statewide Rule 15. The Examiners recommend denial of Operator's request for a payment plan and request for extensions for Form H-5 and H-15 filings and requirements.

## **II. Jurisdiction and Notice<sup>1</sup>**

Sections 81.051 and 81.052 of the Texas Natural Resources Code provide the Commission with jurisdiction over all persons owning or engaged in drilling or operating oil or gas wells in Texas and the authority to adopt all necessary rules for governing and regulating persons and their operations under the jurisdiction of the Commission. Additionally, section 89.022 of the Texas Natural Resources Code specifically requires operators to comply with Commission inactive well rules and prevents the Commission from renewing an operator's organization report if that operator is out of compliance.

Prior to the Commission issuing an order refusing to renew an operator's organization report, Staff must first determine the operator has failed to comply with the inactive well requirements, and Staff must:

- (1) notify the operator of the determination;
- (2) provide the operator with a written statement of the reasons the organization report does not qualify for renewal; and

---

<sup>1</sup> The hearing transcript in this case is referred to as "Tr. at [page(s)]." Staff's exhibits are referred to as "Staff Ex. [exhibit no(s)]." Operator's exhibits are referred to as "Operator Ex. [exhibit no(s)]."

- (3) notify the operator that the operator has 90 days to comply with the requirements of this subchapter.<sup>2</sup>

In a letter to the Operator dated September 12, 2018, Staff notified Operator that Staff had determined renewal of Operator's Form P-5 should be denied because Operator was non-compliant with inactive well requirements; Staff provided the reasons for the determination.<sup>3</sup> This letter provided Operator 90 days to comply with the inactive well requirements.

After the initial letter, the Natural Resources Code requires the following additional notification:

[T]he authorized commission employee or designated person shall determine whether the organization report qualifies for renewal and notify the operator of the determination. If the authorized commission employee or designated person determines that the organization report does not qualify for renewal because the operator has continued to fail to comply with the requirements of this subchapter, the operator, not later than the 30th day after the date of the determination, may request a hearing regarding the determination.<sup>4</sup>

In a letter dated January 3, 2019, Staff again notified Operator that Staff had determined renewal of Operator's Form P-5 should be denied because Operator was non-compliant with inactive well requirements; Staff again provided the reasons for the determination.<sup>5</sup> The January 3 letter provided Operator 30 days to request a hearing regarding the determination. In a letter filed January 18, 2019, Operator requested a hearing. This case followed.

On May 7, 2019, the Hearings Division of the Commission sent a Notice of Hearing ("Notice") to Operator, Staff and surface owners, setting a hearing date of June 20, 2019. Consequently, the parties received more than 10 days' notice. The Notice contains (1) a statement of the time, place, and nature of the hearing; (2) a statement of the legal authority and jurisdiction under which the hearing is to be held; (3) a reference to the particular sections of the statutes and rules involved; and (4) a short and plain statement of the matters asserted.<sup>6</sup>

On June 10, 2019, Mr. Sawey filed a Notice of Intent to Appear at Hearing. The hearing was held on June 20, 2019, as noticed. Operator, Staff and Protestants appeared and participated at the hearing.

### III. Applicable Legal Authority

The Texas Natural Resources Code requires operators to comply with inactive well statutes and rules; if an operator is not in compliance, the Natural Resources Code mandates that the Commission refuse to renew a non-compliant operator's organization report.

Section 89.022 requires operators to plug inactive wells or obtain plugging extensions in compliance with Commission rules and statutes. Otherwise, the Commission must refuse to renew an operator's organization report, which is required for the operator to engage in operations within the Commission's jurisdiction, such as drilling or operating oil and gas wells in Texas.<sup>7</sup> Section 89.022 of the Texas Natural Resource Code specifically provides:

#### PLUGGING OF INACTIVE WELLS REQUIRED.

- (a) Except as provided by Section 89.023, on or before the date the operator is required to renew the operator's organization report required by Section 91.142, an operator of an inactive well must plug the well in accordance with statutes and commission rules in effect at the time of plugging. . . .
- (c) The commission may not renew or approve the organization report . . . for an operator that fails to comply with the requirements of this subchapter. . .
- (f) If the commission determines following the hearing that the operator has failed to comply with the requirements of this subchapter or the operator fails to file a timely request for a hearing, the commission by order shall refuse to renew the organization report. The organization report remains in effect until the commission's order becomes final.<sup>8</sup>

The applicable Commission rule in this case is Statewide Rule 15 (or "Rule 15"), which provides inactive well requirements.<sup>9</sup> Statewide Rule 15(d) states:

#### (d) Plugging of inactive land wells required.

- (1) An operator that assumes responsibility for the physical operation and control of an existing inactive land well must maintain the well and all associated facilities in compliance with all applicable Commission rules and orders and within six months after the date the Commission or its delegate approves an operator designation form must either:

---

<sup>7</sup> See 16 Tex. Admin. Code § 3.1(a)(1).

<sup>8</sup> See *also* 16 Tex. Admin. Code § 3.15(d).

<sup>9</sup> Statewide Rule 15 is a reference to 16 Tex. Admin. Code § 3.15.

- (A) restore the well to active status as defined by Commission rule;
- (B) plug the well in compliance with a Commission rule or order; or
- (C) obtain approval of the Commission or its delegate of an extension of the deadline for plugging an inactive well.<sup>10</sup>

For Operator to show compliance with inactive well requirements, Operator must show it is in compliance with Statewide Rule 15 such that all inactive wells have either been restored to active status, plugged or subject to approved plugging extensions. Otherwise, the Commission cannot renew Operator's Form P-5.

#### IV. Discussion of Evidence

At the hearing, Operator and Staff agreed and Staff provided Commission records showing that Operator has 352 non-compliant wells ("Wells"), which are identified in Attachment A of this PFD. The Wells are inactive and not in compliance with inactive well requirements.<sup>11</sup> Staff had one witness, Jennifer Gilmore, who is a permitting specialist and the team lead for the P-5 Financial Assurance Unit. She testified about the Commission process for determining compliance with inactive well requirements and the determination that Operator is non-compliant.<sup>12</sup>

Operator had three witnesses. Operator's first witness, Don Rhodes, is a consultant for Operator. He testified that Operator has costs associated with filing Commission Form W-3Xs *Application for an Extension of Deadline for Plugging an Inactive Well* ("Form W-3Xs") of approximately \$89,000. Presumably, he was referring to the filing fees and surcharges associated with a Form W-3X pursuant to Statewide Rule 78<sup>13</sup> and Tex. Nat. Res. Code § 81.070. He said the forms have been prepared but not filed. Operator requests a payment plan for these filing fees and surcharges.<sup>14</sup>

Second, Mr. Rhodes testified that Operator requests an extension for meeting requirements and filing Commission Form H-5 *Disposal/Injection Well Pressure Test Reports*. Operator wants additional time to conduct mechanical integrity tests.<sup>15</sup> Mr. Rhodes testified that Operator has been unable to gain access to some of the wells.<sup>16</sup>

Third, Mr. Rhodes testified that Operator requests an additional 90 days to complete Commission Form H-15s *Test on an Inactive Well Over 25 Years Old*. He testified that some have been completed and requested an extension for the other wells.<sup>17</sup>

---

<sup>10</sup> 16 Tex. Admin. Code § 3.15(d).

<sup>11</sup> Tr. at 16-22; Staff Ex. 1-4.

<sup>12</sup> *Id.*

<sup>13</sup> 16 Tex. Admin. Code § 3.78.

<sup>14</sup> Tr. at 30-31; Operator Ex. 1, 7-8.

<sup>15</sup> Tr. at 31; Operator Ex. 1, 10-11.

<sup>16</sup> Tr. at 47-50; Operator Ex. 11.

<sup>17</sup> Tr. at 32; Operator Ex. 1, 9, 11.

Mr. Rhodes acknowledged he did not have an example where there has been these requests made and the Commission has granted them.<sup>18</sup> In rebuttal, Staff's witness, Ms. Gilmore, testified that she is unaware of the Commission offering a payment plan or any authority to renew a Form P-5 based on a payment plan.<sup>19</sup>

Mr. Richard Bednar, President of Operator, was Operator's second witness. Mr. Bednar testified that the prior operator was locked out of a portion of the Operator's leases, but that dispute is now resolved and Operator is no longer denied access.<sup>20</sup>

Operator hired a consultant to do an engineering report regarding potential reserves of Operator's leases where the subject wells are located. There are currently 76 wells on the leases producing—the report includes all wells on the leases, not just the subject inactive wells. Mr. Bednar testified that he believes the value of the reserves yet to be produced is \$13,382,645.<sup>21</sup>

Mr. Bednar testified that thus far, the asset owner—DESMD X, LLC—has spent \$3,568,996.69 for rehabilitation of infrastructure and to bring wells back online.<sup>22</sup>

Mr. John Pelgar, a consulting engineer and experienced in regulatory matters, was Operator's third witness. He testified that he has confidence in the reserves report and that he believes there is \$13 million of reserves that can be produced from Operator's leases.<sup>23</sup>

Ms. Mary Sawey testified as a protestant. She stated she would like to file a complaint against Operator about the condition of the Operator's wells on her property. She testified that there are old rusty pipes and other old equipment in places and that no wells are producing on her property. She testified there are leaks on her property and that there is a lack of vegetation in areas of the leaks. She expressed concern that no one will clean up the property.<sup>24</sup>

Mr. Bednar testified that Operator will clean up the property.<sup>25</sup>

## **V. Examiners' Analysis**

The Examiners recommend Operator's request for renewal of its organization report be denied and Operator be ordered to comply with inactive well rules. The parties do not dispute the facts in this case or that Operator is not in compliance with inactive well rules.

---

<sup>18</sup> Tr. at 44.

<sup>19</sup> Tr. at 64-65.

<sup>20</sup> Tr. at 51-53.

<sup>21</sup> Tr. at 51-55; Operator Ex. 4-5.

<sup>22</sup> Tr. at 56-58; Operator Ex. 6.

<sup>23</sup> Tr. at 62-63.

<sup>24</sup> Tr. at 65-67.

<sup>25</sup> Tr. at 67.

Section 89.022 of the Texas Natural Resources Code requires an operator of an inactive well to comply with inactive well requirements before the time of renewal of the operator's P-5.<sup>26</sup> If the operator fails to achieve compliance before the renewal date, the Commission cannot renew the operator's P-5.<sup>27</sup>

The definition of an inactive well is:

An unplugged well that has been spudded or has been equipped with cemented casing and that has had no reported production, disposal, injection, or other permitted activity for a period of greater than 12 months.<sup>28</sup>

The parties agreed and the evidence shows Operator has 352 non-compliant wells.

Statewide Rule 15 requires inactive wells to either (1) be plugged, (2) be put back into production or (3) be subject to plugging extensions.<sup>29</sup> At the hearing, the parties agreed the Wells are not in compliance with inactive well requirements, i.e. they are not plugged or subject to plugging extensions.

While Operator requests extensions of these deadlines and a payment plan for money required by Commission rule to be paid, Operator provided no authority or precedent that either has ever occurred.

Pursuant to section 89.022 of the Texas Natural Resources Code, the Commission cannot renew Operator's organization report because Operator is non-compliant with Commission inactive well requirements. For these reasons, the Examiners recommend Operator's request for renewal of its P-5 should be denied and Operator ordered to place the Wells in compliance with Statewide Rule 15. The Examiners recommend denial of Operator's request for a payment plan and request for extensions for Form H-5 and H-15 filings and requirements.

## **VI. Recommendation, Proposed Findings of Fact and Proposed Conclusions of Law**

Based on the record in this case and evidence presented, the Examiners recommend Operator's request for renewal of its P-5 should be denied and Operator ordered to place the Wells in compliance with Statewide Rule 15. The Examiners recommend denial of Operator's request for a payment plan and for extensions for Form H-5 and H-15 filings and requirements, and the Commission adopt the following findings of fact and conclusions of law.

---

<sup>26</sup> See Tex. Nat. Res. Code § 89.022(a).

<sup>27</sup> See Tex. Nat. Res. Code § 89.022(c) and (d).

<sup>28</sup> 16 Tex. Admin. Code § 3.15(a)(6).

<sup>29</sup> 16 Tex. Admin. Code § 3.15(d).

### Findings of Fact

1. Maverick Energy Group, Inc. ("Operator" or "Maverick"), Operator No. 534219, is the current operator of record for the wells ("Wells") identified on Attachment A.
2. In a letter to the Operator dated September 12, 2018, Staff notified Operator that Staff had determined renewal of Operator's Form P-5 should be denied because Operator was non-compliant with inactive well requirements; Staff provided the reasons for the determination. This letter provided Operator 90 days to comply with the inactive well requirements.
3. In a letter dated January 3, 2019, Staff again notified Operator that Staff had determined renewal of Operator's Form P-5 should be denied because Operator was non-compliant with inactive well requirements; Staff again provided the reasons for the determination. The January 3 letter provided Operator 30 days to request a hearing regarding the determination.
4. In a letter filed January 18, 2019, Operator requested a hearing.
5. On May 7, 2019, the Hearings Division of the Commission sent a Notice of Hearing ("Notice") to Operator, Staff and surface owners, setting a hearing date of June 20, 2019. Consequently, the parties received more than 10 days' notice. The Notice contains (1) a statement of the time, place, and nature of the hearing; (2) a statement of the legal authority and jurisdiction under which the hearing is to be held; (3) a reference to the particular sections of the statutes and rules involved; and (4) a short and plain statement of the matters asserted.
6. On June 10, 2019, Mr. Sawey filed a Notice of Intent to Appear at Hearing.
7. The hearing was held on June 20, 2019, as noticed. Operator and Staff appeared and participated at the hearing. Harold and Mary Sawey ("Protestants"), surface owners where some of the subject wells are located, also appeared and participated at the hearing, protesting in opposition to Maverick's application.
8. Harold and Mary Sawey ("Protestants"), surface owners where some of the subject wells are located, protested in opposition to Maverick's application.
9. Commission records show and Operator agrees that Operator has 352 wells ("Wells") non-compliant with Commission inactive well requirements.
10. Operator requests a payment plan for fees and surcharges associated with applying for plugging extensions from the Commission. Operator provided no precedent or authority for such a payment plan.

11. Operator requests extensions for meeting requirements and filing Commission Form H-5 *Disposal/Injection Well Pressure Test Reports*. Operator provided no precedent or authority for such an extension.
12. Operator requests a 90-day extension for meeting requirements and filing Commission Form H-15s *Test on an Inactive Well Over 25 Years Old*. Operator provided no precedent or authority for such an extension.
13. The Wells have had no reported production, disposal, injection, or other permitted activity for a period of greater than 12 months. Each of the Wells meets the definition of an inactive well.
14. Protestants provided testimony that the subject wells on their property and surrounding areas are in a dilapidated state. They claim there are leaks on their property and that there is a lack of vegetation in areas of the leaks.
15. The Wells are not plugged, have not been placed back into production and do not have plugging extensions.

### **Conclusions of Law**

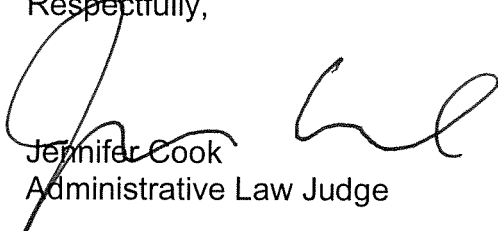

1. Proper notice of hearing was timely issued to persons entitled to notice. *See, e.g.,* Tex. Gov't Code §§ 2001.051, 052; 16 Tex. Admin. Code §§ 1.42, 1.45.
2. The Commission has jurisdiction in this case. *See, e.g.,* Tex. Nat. Res. Code §§ 81.051, 89.021-89.030.
3. The Wells are not in compliance with the requirements of Statewide Rule 15. 16 Tex. Admin. Code § 3.15.
4. Operator has been provided notice and an opportunity for hearing regarding compliance with Tex. Nat. Res. Code §§ 89.021-89.030 and 16 Tex. Admin. Code § 3.15.
5. Operator failed to comply with the requirements of Tex. Nat. Res. Code §§ 89.021-89.030 and 16 Tex. Admin. Code § 3.15.
6. Operator's Form P-5 may not be renewed or approved. Tex. Nat. Res. Code § 89.022(c).

### **Recommendation**

The Examiners recommend the Commission enter an order denying the renewal of Operator's Form P-5. The Examiners also recommend that Operator be ordered to place the Wells into compliance with Statewide Rule 15. The Examiners recommend

denial of Operator's request for a payment plan and for extensions for Form H-5 and H-15 filings and requirements.
