In conference at its office in Austin, Texas, the Railroad Commission of Texas took up for consideration its Final Order entered on March 26, 2019, the matter designating the Lin (Wolfcamp) field as an Unconventional Fracture Treated (UFT) field. Accordingly, it is **ORDERED** that the Final Order in Oil and Gas Docket No. 7C-0317412 be, and the same is hereby, amended nunc pro tunc so that the order contains the correct field being designated as UFT and the order now reads as follows:

The Commission finds that after notice and an opportunity for hearing regarding the captioned matter, no operator in the field covered by this order has filed a timely notice of protest or requested a hearing regarding the proposed designation of the Lin (Wolfcamp) Field (No. 53613750) as an Unconventional Fracture Treated ("UFT") Field. This matter having been duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following finding of facts and conclusions of law.

 - (a) there are at least five such wells of which at least 65% were drilled horizontally and completed using hydraulic fracture treatment; or
 - (b) there are at least twenty-five such wells drilled horizontally and completed using hydraulic fracture treatment
7. Designation of the Lin (Wolfcamp) Field as UFT Field is authorized by Statewide rule 86(i) and will further the orderly and efficient development of the state's hydrocarbon resources.
