

**RAILROAD COMMISSION OF TEXAS
HEARINGS DIVISION**

OIL AND GAS DOCKET NO. 08-0319085

**APPLICATION OF XTO ENERGY INC. (945936) FOR AN EXCEPTION TO
STATEWIDE RULE 32 FOR THE UNIVNATALIE TB, SPRABERRY (TREND AREA)
FIELD, ANDREWS COUNTY, TEXAS**

FINAL ORDER

The Railroad Commission of Texas ("Commission") finds that after notice in the above-docketed case was provided to all parties entitled to notice, a hearing was heard on June 20, 2019, by a Commission Technical Examiner and Administrative Law Judge. This proceeding was duly submitted to the Commission at a conference held in its offices in Austin, Texas. After considering this matter, the Commission adopts the following findings of fact and conclusions of law.

Findings of Fact

1. XTO Energy Inc. ("XTO" or "Applicant") seeks an exception to Statewide Rule 32 ("Statewide Rule 32") for authority to flare a maximum of 700 thousand cubic feet per day ("Mcf"), multiplied by the calendar days of a particular month, of casinghead gas from May 3, 2019, to May 2, 2021, from a single flare point. The flare point is located at the Univnatalie Tank Battery ("Univnatalie TB"), Spraberry (Trend Area) Field, Andrews County, Texas.
2. XTO submitted a request for hearing on the Statewide Rule 32 exception flaring authority request on March 19, 2019.
3. XTO was previously granted an administrative exception to Statewide Rule 32 to flare a maximum casinghead gas volume of 500 Mcfd from the Univnatalie TB lease. This administrative flaring authority (Permit No. 29058) expired on May 2, 2017. Flaring authority was then granted by Final Order 08-0304046. This authority was modified by Final Order 08-0307138 to amend the requested flare volume, expiring May 5, 2019.
4. On May 13, 2019, the Hearings Division of the Commission sent a Notice of Hearing ("Notice") to Applicant and all offsetting operators in the field setting a hearing date of June 20, 2019. Consequently, the parties received more than 10 days' notice. The Notice contains (1) a statement of the time, place, and nature of the hearing; (2) a statement of the legal authority and jurisdiction under which the hearing is to be held; (3) a reference to the particular sections of the statutes and rules involved; and (4) a short and plain statement of the matters asserted. The

hearing was held on June 20, 2019, as noticed. Applicant appeared and participated at the hearing. No one appeared in protest.

5. At present, the gas produced from the subject leases is gathered by Williams MLP Operating LLC ("Williams"). The gas is sold to Energy Transfer Company ("ETC").
6. System upsets due to maintenance, equipment failures, high line pressure and temporary outages prevent gas from being sold, resulting in excess gas that must be flared.
7. During events of periodic and partial curtailment on the Williams system, the curtailed volumes of produced casinghead gas from the subject leases are diverted to the Univnatalie TB flare point for combustion disposal.
8. Since January 2017, the maximum reported monthly volumes of casinghead gas flared at the Univnatalie TB is 5,754 Mcf.
9. The estimated volume of casinghead gas to be flared would be a maximum of 700 Mcfd, limited to 6,000 Mcfm during periods of high line pressure and temporary system upsets.
10. The requested Statewide Rule 32 exceptions to flare a maximum of 700 Mcfd, limited to 6000 Mcfm, of casinghead gas is necessary for XTO to produce the recoverable oil during periods of high line pressure and temporary system upsets.
11. At the hearing, XTO agreed on the record that the Final Order in this docketed case is to be final and effective when a Master Order relating to this Final Order is signed.

Conclusions of Law

1. Proper notice was issued to persons entitled to notice. *See, e.g.,* Tex. Gov't Code § 2001.051; 16 Tex. Admin. Code §§ 1.42, 1.45.
2. The Commission has jurisdiction in this case. *See, e.g.,* Tex. Nat. Res. Code § 81.051.
3. Statewide Rule 32 requires gas to be utilized for purposes and uses authorized by law unless excepted by law. 16 Tex. Admin. Code § 3.32(b).
4. Statewide Rule 32 provides exceptions allowing the flaring of gas if certain requirements are met and the flaring is necessary. *See, e.g.,* 16 Tex. Admin. Code § 3.32(f), (h).

5. XTO has met the requirements in Statewide Rule 32 to flare a maximum of 700 Mcfd, limited to 6,000 Mcfm, of casinghead gas from the Univnatalie TB, and the flaring of such gas is necessary.
6. Pursuant to the provisions of Texas Government Code § 2001.144(a)(4)(A), this Final Order can be final and effective on the date a Master Order relating to this Final Order is signed.

Ordering Provisions

It is **ORDERED** that XTO Energy Inc. (945936) (“XTO”) is **GRANTED** a two-year exception to Statewide Rule 32. Its request for authority to flare a maximum of 700 thousand cubic feet per day (“Mcf/d”), limited to 6,000 thousand cubic feet per month (“Mcfm”), of casinghead gas from the Univnatalie TB, from May 3, 2019, to May 2, 2021, as reflected in attached Attachment A is **APPROVED**.

This authority is granted, provided all production is reported on the appropriate Commission forms. XTO shall file the Statewide Rule 32 Exception Data Sheet and, shall file at the same time, the required fee for a Statewide Rule 32 exception for each individual flare point on the Lease. See 16 Tex. Admin. Code § 3.32(h)(1).

Pursuant to § 2001.144(a)(4)(A) of the Texas Government Code and the agreement of the parties in writing or on the record, **the parties have waived the right to file a motion for rehearing and the Final Order in this case is final and effective on the date the Master Order relating to the Final Order is signed.**
