**ENFORCEMENT ACTION AGAINST ALARON ENERGY, INC. (OPERATOR NO. 010450) FOR VIOLATIONS OF STATEWIDE RULES ON THE SCHMIDT, H.G. LEASE, WELL NO. 1 (RRC ID No. 079420), WADE CITY (2300) FIELD, JIM WELLS COUNTY, TEXAS**

---

**FINAL ORDER**

The Railroad Commission of Texas ("Commission") finds that statutory notice of the captioned enforcement proceeding was provided pursuant to Commission rules, and that the respondent, Alaron Energy, Inc., failed to appear or respond to the **Notice of Opportunity for Hearing**. Pursuant to § 1.25 of the Commission's General Rules of Practice and Procedure, 16 Texas Administrative Code § 1.25, and after being duly submitted to the Commission at a Conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

**FINDINGS OF FACT**

1. Alaron Energy, Inc. ("Respondent"), Operator No. 010450, was sent the Original Complaint and Notice of Opportunity for Hearing by certified and first-class mail, addressed to the most recent Commission Form P-5 (Organization Report) ("Form P-5") address.
2. The certified mail envelope containing the Original Complaint and Notice of Opportunity for Hearing addressed to the Respondent was returned to the Commission on August 9, 2019. The First Class mail was not returned. Record of the delivery and return of certified mail has been on file with the Commission for more than 15 days, exclusive of the day of receipt and day of issuance. Respondent was given more than 30 days' notice of the Original Complaint and Notice of Opportunity for Hearing. Respondent has not entered into an agreed settlement order, filed an answer or requested a hearing.
3. On March 22, 2018, Respondent, a corporation, filed a Form P-5 with the Commission reporting that its officers consist of the following individuals: Roman Kupchynsky, President.
4. Respondent's Form P-5 is delinquent. Respondent had a \$50,000.00 letter of credit as its financial assurance at the time of the last Form P-5 annual renewal submission.
5. Respondent designated itself to the Commission as the operator of the Schmidt, H.G. Lease, Well No. 1 (RRC ID No. 079420), by filing a Commission Form P-4 (Certificate of Compliance and Transportation Authority), effective July 1, 2017, approved July 31, 2017.
6. Commission inspection reports made on April 5, 2018, July 10, 2018, August 31, 2018, and November 26, 2018, for the Schmidt, H.G. Lease, Well No. 1 (RRC ID No. 079420), show the sign or identification required to be posted at the well location displayed incorrect information.

7. The lack of legible signs and identification displaying correct information, as set forth in Statewide Rule 3(2), may cause confusion as to the responsible operator to be contacted and the actual location of a violation or emergency, which can result in delays in remedying a violation or emergency.
8. Commission inspection reports made on April 5, 2018, July 10, 2018, August 31, 2018, and November 26, 2018, and the absence of reported production since June 2006, show the Schmidt, H.G. Lease, Well No. 1 (RRC ID No. 079420), has been inactive for a period greater than one year. Production from the subject lease ceased in May 2006.
9. No workovers, re-entries, or subsequent operations have taken place on the subject well within the last twelve months and the subject well has not been properly plugged in accordance with Statewide Rule 14. 16 Tex. Admin. Code § 3.14. No plugging extensions are in effect for the subject well as allowed by Statewide Rule 15.
10. Usable quality groundwater in the area can become contaminated by migrations or discharges of saltwater and other oil and gas waste from the subject well. Unplugged wellbores, in violation of Statewide Rule 14(b)(2), constitute a cognizable threat to the public health and safety because of the potential of pollution.
11. The total estimated cost to the State for plugging the Schmidt, H.G. Lease, Well No. 1 (RRC ID No. 079420), is \$14,814.36.
12. The Respondent charged with the violation herein recited has a history of violations of Commission rules as set forth in Oil & Gas Docket No. 7C-0315100.

### CONCLUSIONS OF LAW

1. Proper notice was issued by the Commission to Respondent and all other appropriate persons legally entitled to notice.
2. All things necessary to the Commission attaining jurisdiction over the subject matter and the parties have been performed or have occurred.
3. Respondent is responsible for maintaining the subject lease in compliance with all applicable Commission rules and Texas Natural Resources Code, Chapters 89 and 91.
4. Respondent is in violation of Statewide Rules 3(2) and 14(b)(2). 16 Tex. Admin. Code §§ 3.3(2), and 3.14(b)(2).
5. The documented violations committed by Respondent constitute acts deemed serious, and a hazard to the public health, and demonstrate a lack of good faith pursuant to Texas Natural Resources Code § 81.0531(c).
6. Respondent is responsible for maintaining the subject lease in compliance with Statewide Rule 3(2), which requires that each well site that produces oil, gas, or geothermal resources shall post signs or identification showing the name of the property, name of the operator and the well number.

7. Respondent is responsible for maintaining the subject lease in compliance with Statewide Rule 14(b)(2), which requires that plugging operations on each dry or inactive well shall be commenced within a period of one year after drilling or operations cease and shall proceed with due diligence until completed, unless the operator is eligible for and obtains an extension of the plugging deadline.
8. Pursuant to Texas Natural Resources Code § 81.0531, the Commission may assess administrative penalties against Respondent for the subject violations of up to \$10,000 per day for each violation, with each day such violations continued constituting a separate violation.
9. An assessed administrative penalty in the amount of **FOUR THOUSAND EIGHT HUNDRED TWENTYTWO DOLLARS (\$4,822.00)** is justified considering the facts and violations at issue.
10. Respondent violated Commission rules related to safety and the control of pollution. Any other organization in which an officer of this organization holds a position of ownership or control, is subject to the restriction in Texas Natural Resources Code § 91.114.
