**ENFORCEMENT ACTION AGAINST RINGO RIG LLC (OPERATOR NO. 712386) FOR VIOLATIONS OF STATEWIDE RULES ON THE ADKISSON, ALBERT W. (10220) LEASE, WELL NOS. 1 AND 6, COLEMAN COUNTY REGULAR FIELD, COLEMAN COUNTY, TEXAS**

---

**FINAL ORDER**

The Railroad Commission of Texas ("Commission") finds that statutory notice of the captioned enforcement proceeding was provided pursuant to Commission rules, and that the Respondent, Ringo Rig LLC, failed to appear or respond to the **Notice of Opportunity for Hearing**. Pursuant to § 1.25 of the Commission's General Rules of Practice and Procedure, 16 Texas Administrative Code § 1.25, and after being duly submitted to the Commission at a Conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

**FINDINGS OF FACT**

1. Ringo Rig LLC ("Respondent"), Operator No. 712386, was sent the Original Complaint and Notice of Opportunity for Hearing by certified and first-class mail, addressed to the most recent Commission Form P-5 (Organization Report) ("Form P-5") address.
2. The certified mail envelope containing the Original Complaint and Notice of Opportunity for Hearing addressed to the Respondent was returned, unopened, on October 8, 2019. The first-class mail was not returned. Record of the delivery and return of certified mail has been on file with the Commission for more than 15 days, exclusive of the day of receipt and day of issuance. Respondent was given more than 30 days' notice of the Original Complaint and Notice of Opportunity for Hearing. Respondent has not entered into an agreed settlement order, filed an answer or requested a hearing.
3. On June 27, 2018, Respondent, a limited liability company, filed a Form P-5 with the Commission reporting that its officer consists of the following individual: Gregory L Hardin, Managing Member.
4. Respondent's Form P-5 is delinquent. Respondent had a \$50,000.00 letter of credit as its financial assurance at the time of the last Form P-5 annual renewal submission.
5. Respondent designated itself to the Commission as the operator of the Adkisson, Albert W. (10220) Lease, Well Nos. 1 and 6, by filing a Commission Form P-4 (Certificate of Compliance and Transportation Authority), effective May 1, 2018, approved May 8, 2018.
6. Well No. 6 of the Adkisson, Albert W. (10220) Lease is a permitted injection well. Commission inspection reports made on November 15, 2018, January 14, 2019, February 25, 2019 and September 19, 2019, and the absence of reported injection since April 2009 and the

absence of reported production since September 2013, show that the Adkisson, Albert W. (10220) Lease, Well Nos. 1, and 6, have been inactive for a period greater than one year. Injection into Well No. 6 ceased in March 2009 and production from the subject lease ceased in August 2013.

7. No workovers, re-entries, or subsequent operations have taken place on the subject wells within the last twelve months; the subject wells have not been properly plugged in accordance with Statewide Rule 14, 16 Tex. Admin Code § 3.14; and no plugging extensions are in effect for the subject wells as allowed by Statewide Rule 14.
8. Usable quality groundwater in the area can become contaminated by migrations or discharges of saltwater and other oil and gas waste from the subject well. Unplugged wellbores, in violation of Statewide Rule 14(b)(2), constitute a cognizable threat to the public health and safety because of the potential of pollution.
9. The total estimated cost to the State for plugging the Adkisson, Albert W. (10220) Lease, Well Nos. 1 and 6, is \$18,459.00.
10. The Respondent has no prior history of violations of Commission Rules.

#### CONCLUSIONS OF LAW

1. Proper notice was issued by the Commission to Respondent and all other appropriate persons legally entitled to notice.
2. All things necessary to the Commission attaining jurisdiction over the subject matter and the parties have been performed or have occurred.
3. Respondent is responsible for maintaining the subject lease in compliance with all applicable Commission rules and Texas Natural Resources Code, Chapters 89 and 91.
4. Respondent is in violation of Statewide Rule 14(b)(2). 16 Texas Administrative Code § 3.14(b)(2).
5. The documented violations committed by Respondent constitute acts deemed serious, and a hazard to the public health, and demonstrate a lack of good faith pursuant to Texas Natural Resources Code § 81.0531(c).
6. Respondent is responsible for maintaining the subject lease in compliance with Statewide Rule 14(b)(2), which requires that plugging operations on each dry or inactive well shall be commenced within a period of one year after drilling or operations cease and shall proceed with due diligence until completed, unless the operator is eligible for and obtains an extension of the plugging deadline.
7. Pursuant to Texas Natural Resources Code § 81.0531, the Commission may assess administrative penalties against Respondent for the subject violations of up to \$10,000 per day for each violation, with each day such violations continued constituting a separate violation.

8. An assessed administrative penalty in the amount of **SIX THOUSAND NINE HUNDRED SIXTY-THREE DOLLARS (\$6,963.00)** is justified considering the facts and violations at issue.
9. Respondent violated Commission rules related to safety and the control of pollution. Any other organization in which an officer of this organization holds a position of ownership or control, is subject to the restriction in Texas Natural Resources Code § 91.114.
