FINAL ORDER

The Railroad Commission of Texas ("Commission") finds that statutory notice of the captioned enforcement proceeding was provided pursuant to Commission rules, and that the respondent, Edge Oil and Gas, LLC, failed to appear or respond to the **Notice of Opportunity for Hearing**. Pursuant to § 1.25 of the Commission's General Rules of Practice and Procedure, 16 Texas Administrative Code § 1.25, and after being duly submitted to the Commission at a Conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Edge Oil and Gas, LLC ("Respondent"), Operator No. 243206, was sent the Original Complaint and Notice of Opportunity for Hearing by certified and first-class mail, addressed to the most recent Commission Form P-5 (Organization Report) ("Form P-5") address.
2. The certified mail envelope containing the Original Complaint and Notice of Opportunity for Hearing addressed to the Respondent was returned to the Commission unopened on January 3, 2020. The first-class mail was returned to the Commission unopened on January 3, 2020. Record of the delivery and return of certified mail has been on file with the Commission for more than 15 days, exclusive of the day of receipt and day of issuance. Respondent was given more than 30 days' notice of the Original Complaint and Notice of Opportunity for Hearing. Respondent has not entered into an agreed settlement order, filed an answer or requested a hearing.
3. On September 19, 2018, Respondent, a limited liability company, filed a Form P-5 with the Commission reporting that its officer consists of the following individual: Eddie D. Guelker, President, and Martha E. Guelker, VP.
4. Respondent's Form P-5 is delinquent. Respondent had a \$25,000.00 cash deposit as its financial assurance at the time of the last Form P-5 annual renewal submission.
5. Respondent designated itself to the Commission as the operator of the Logsdon (7B-23228) Lease, Well Nos. 1 and 2, by filing a Commission Form P-4 (Certificate of Compliance and Transportation Authority), effective November 1, 2006, approved November 17, 2006.
6. A Commission inspection report made on November 5, 2019, for the Logsdon (7B-23228) Lease show the sign or identification required to be posted at Well Nos. 1 and 2, were illegible.

7. A Commission inspection report made on November 5, 2019, for the Logsdon (7B-23228) Lease show the signs or identification required to be posted at the tank battery was missing required information.
8. The lack of legible signs and identification displaying correct information, as set forth in Statewide Rules 3(2) and 3(3), may cause confusion as to the responsible operator to be contacted and the actual location of a violation or emergency, which can result in delays in remedying a violation or emergency.
9. A Commission District inspection report made on November 5, 2019, for the Logsdon (7B-23228) Lease show hydrocarbon pollution inside the firewall measuring 180 square feet.
10. Respondent did not have a permit for said discharges, nor were they authorized under Statewide Rules 8(d)(3), 8(e), 9, 46 or 98.
11. Unpermitted discharges of oil and gas waste, in violation of Statewide Rule 8(d)(1), can contaminate the land surface, affect the health of humans and animals, and may eventually be discharged to surface or subsurface waters, causing pollution.
12. A Commission inspection report made on November 5, 2019, and either production reports being filed with zero production, or the absence of production reports being filed, by the Respondent since February 2017, show the Logsdon (7B-23228) Lease, Well No. 2, has been inactive for a period greater than one year. Production from the subject lease ceased in January 2017.
13. No workovers, re-entries, or subsequent operations have taken place on the subject well within the last twelve months and the subject well has not been properly plugged in accordance with Statewide Rule 14. 16 Tex. Admin. Code § 3.14. No plugging extensions are in effect for the subject well as allowed by Statewide Rule 14.
14. Usable quality groundwater in the area can become contaminated by migrations or discharges of saltwater and other oil and gas waste from the subject well. Unplugged wellbores, in violation of Statewide Rule 14(b)(2), constitute a cognizable threat to the public health and safety because of the potential of pollution.
15. The total estimated cost to the State for plugging the Logsdon (7B-23228) Lease Well No. 2 is \$14,373.00.
16. The Respondent has no prior history of violations of Commission Rules.
