OFFICE OF GENERAL COUNSEL**

OIL AND GAS DOCKET NO. 00001911

ENFORCEMENT ACTION AGAINST BYNG ENERGY GROUP, INC. (OPERATOR NO. 118732) FOR VIOLATIONS OF STATEWIDE RULES ON THE MORAN LEASE, WELL NO. 1H (RRC ID NO. 03-157731), IOLA (GEORGETOWN) FIELD, GRIMES COUNTY, TEXAS

FINAL ORDER

The Railroad Commission of Texas ("Commission") finds that statutory notice of the captioned enforcement proceeding was provided pursuant to Commission rules, and that the Respondent, Byng Energy Group, Inc., failed to appear or respond to the **Notice of Opportunity for Hearing**. Pursuant to § 1.25 of the Commission's General Rules of Practice and Procedure, 16 Texas Administrative Code § 1.25, and after being duly submitted to the Commission at a Conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Byng Energy Group, Inc. ("Respondent"), Operator No. 118732, was sent the Original Complaint and Notice of Opportunity for Hearing by certified and first-class mail, addressed to the most recent Commission Form P-5 (Organization Report) ("Form P-5") address. Respondent's agent as identified on the Form P-5—Amanda Pruitt—was sent the Original Complaint and Notice of Opportunity for Hearing by certified and first-class mail, addressed to the last known address.
2. The certified mail envelope containing the Original Complaint and Notice of Opportunity for Hearing addressed to the Respondent was returned to the Commission unopened on May 14, 2020. The first-class mail envelope addressed to Respondent was returned to the Commission unopened on May 20, 2020. The Certified Mail envelope addressed to Amanda Pruitt was returned to the Commission unopened on May 20, 2020. The first-class mail envelope addressed to Amanda Pruitt was returned to the Commission unopened on May 20, 2020. Record of the delivery and return of certified mail has been on file with the Commission for more than 15 days, exclusive of the day of receipt and day of issuance. Respondent was given more than 30 days' notice of the Original Complaint and Notice of Opportunity for Hearing. Respondent has not entered into an agreed settlement order, filed an answer or requested a hearing.
3. On March 20, 2018, Respondent, a corporation, filed a Form P-5 with the Commission reporting that its officer consists of the following individual: Nickell, Dickie Lee, President/Secretary.
4. Respondent's Form P-5 is delinquent. Respondent had a \$50,000.00 cash deposit as its financial assurance at the time of the last Form P-5 annual renewal submission.

5. Respondent designated itself to the Commission as the operator of the Moran Lease, Well No. 1H (RRC ID No. 157731), by filing a Commission Form P-4 (Certificate of Compliance and Transportation Authority), effective September 1, 2017, approved October 20, 2017.
6. Commission inspection reports made on May 15, 2019, June 28, 2019, and August 22, 2019, for the Moran Lease, Well No. 1H (RRC ID No. 157731), show the sign or identification required to be posted at the lease entrance is missing. A May 29, 2020 inspection shows a sign at the lease entrance displaying an incorrect operator's name.
7. The lack of legible signs and identification displaying correct information, as set forth in Statewide Rules 3(1), may cause confusion as to the responsible operator to be contacted and the actual location of a violation or emergency, which can result in delays in remedying a violation or emergency.
8. Commission inspection reports made on May 15, 2019, June 28, 2019, August 22, 2019 and May 29, 2020, and the absence of reported production since March 2002, show the Moran Lease, Well No. 1H (RRC ID No. 157731), has been inactive for a period greater than one year. Production from the subject lease ceased in February 2002.
9. No workovers, re-entries, or subsequent operations have taken place on the subject well within the last twelve months and the subject well has not been plugged in accordance with Statewide Rule 14. 16 Tex. Admin Code § 3.14. No plugging extensions are in effect for the subject well as allowed by Statewide Rule 14.
10. Usable quality groundwater in the area can become contaminated by migrations or discharges of saltwater and other oil and gas waste from the subject well. Unplugged wellbores, in violation of Statewide Rule 14(b)(2), constitute a cognizable threat to the public health and safety because of the potential of pollution.
11. The total estimated cost to the State for plugging the Moran Lease, Well No. 1H (RRC ID No. 157731), is \$79,281.00.
12. Commission inspection reports made on May 15, 2019, June 28, 2019, and August 22, 2019, on the Moran Lease, Well No. 1H (RRC ID No. 157731) show that there is a two-foot breach on one end of the firewall, allowing fluids to escape.
13. Failing to erect a dike or fire wall as required by Statewide Rule 21(j) can cause fires.
14. The Respondent charged with the violations herein recited has the following history of violations of Commission rules: Oil & Gas Docket No. 7B-0316219 - Violation of Statewide Rules 3 and 14(b)(2), Order served June 5, 2019 and Oil & Gas Docket No. 03-0319404 - Violation of Statewide Rules 3 and 14(b)(2), Order served December 18, 2019.

7. Respondent is responsible for maintaining the subject lease in compliance with Statewide Rule 14(b)(2), which requires that plugging operations on each dry or inactive well shall be commenced within a period of one year after drilling or operations cease and shall proceed with due diligence until completed, unless the operator is eligible for and obtains an extension of the plugging deadline.
8. Respondent is responsible for maintaining the subject lease in compliance with Statewide Rule 21(j), which requires that dikes or fire walls be erected and kept around all permanent oil tanks or battery of tanks that are within the corporate limits of any city, town or village or where such tanks are closer than 500 feet to any highway or inhabited dwelling or closer than 1,000 feet to any school or church, or where such tanks are located as to be deemed by the Commission to be an objectionable hazard.
9. Pursuant to Texas Natural Resources Code § 81.0531, the Commission may assess administrative penalties against Respondent for the subject violations of up to \$10,000 per day for each violation, with each day such violations continued constituting a separate violation.
10. An assessed administrative penalty in the amount of **TWENTY THOUSAND SIX HUNDRED TWENTY-SIX DOLLARS (\$20,626.00)** is justified considering the facts and violations at issue.
11. Respondent violated Commission rules related to safety and the control of pollution. Any other organization in which an officer of this organization holds a position of ownership or control, is subject to the restriction in Texas Natural Resources Code § 91.114.
